

core and ten years. Have lived in three wars, the Civil War, Spanish-American and the World War. I had two brothers in the Civil War and lost both of them. I have served for Confederate veterans for almost fifty years. I felt it owed to them for service in the "Lost Cause." I had sons in the World War. One enjoying a splendid law practice, over the draft age, answered the call for his country, lost his health in the trenches and is now sleeping in an American uniform.

Our boys were called into the service and we went with them to the front and promised them our all when they returned. They went, and who were not left on the battle field of Europe returned—many of them wounded. What have we done for them? How have we rewarded them? Four good men are running for solicitor in this district. Three of them I have never seen. For a moment let's examine their records. One was G. H. Russell in 1917-18. At home enjoying the greatest of prosperity this country has seen. Where was M. W. Nash in 1917-18? At home living easy, his land was flowing freely with milk and honey. Where was F. D. Phillips in the stormy days of 1917-18. In the trenches of the battle of Europe wading in blood—shot and shell for his board of clothes that this country might be safe for democracy. He reared a wounded soldier—just in time to see the last cloud of prosperity by.

Let me I have never met F. D. Phillips as an appreciation of his service to his country I shall cast my vote for him for solicitor of this dis-

Appeal to the men and women of this county to go to the polls on the 3rd and cast your ballots for Phillips for solicitor—the soldier

### JACKSON SPRINGS

Three of the 136 young men to graduate from N. C. State College this week formerly lived in this community. They are Charles Wilson, of Hemp, who graduates in civil engineering, and John McLeod, of McBee, S. C., and Colon Pegram, of Lincoln, who graduate in agriculture. We hope to see some of this year's high school class of nine boys graduate from college, and are glad to state that some are planning to go to State College for agricultural and engineering courses.

A very interesting meeting was carried out at the school auditorium by the community club, on Tuesday evening. County Agent, Parrot, and Home Demonstration Agent, Bradford, were here for their first meeting with us and made interesting talks.

Mrs. Margaret Stutts died at the home of her son at Hoffman on Monday, and interment was made in the new cemetery here on Wednesday. Mrs. Stutts was reared in this community and spent a great part of her life here where she had a large circle of friends. She leaves two sons and one daughter to mourn her loss. Strange to say, Ben Stutts, her husband with whom she had not lived for a number of years died the same week at his home near Norman. He was seen in Norman the early part of the week and had been accustomed to leaving home and spending a few days visiting friends, and was found dead on Friday. Interment was near his home. Mr. Stutts was a native of the Mt. Carmel community in this county and served a few months in the confederate army during the conflict between the states.

Friends here were shocked upon receiving the news of the death of Grace, the 13 year old daughter of Mr. and Mrs. A. L. Currie, on Saturday. She was carried to the Charlotte Sanatorium for an operation for appendicitis on Friday, and died the following morning at 4 o'clock. She had been sick several days and was carried to the Sanatorium in hopes that her heart might grow stronger, so an operation could be performed. Besides her mother, her cousins, Misses Nola and Monnie Currie, of Candor, who are trained nurses located in Charlotte were with her at the time of her death. Mr. Currie and son, D. F. Currie, of Pinehurst, left immediately, and the latter returned with Mrs. Currie in the afternoon, and Mr. Currie came with the hearse later in the evening. Grace was a very bright child, and her black hair with blue eyes and fair complexion, with a pleasing smile made her very beautiful. Rev. R. G. Matheson, her pastor, conducted a short service at the home on Sunday morning for the benefit of Miss Sarah Currie, her devoted aunt, who was unable to attend the funeral which was conducted by her pastor at the Presbyterian church at noon. About twenty of her class mates from the Derby Memorial school and the Presbyterian Sunday School here carried the flowers that banked the fresh mound made in the family burying plot in the burying ground back of the church. She leaves, to mourn her loss, besides her mother and father, three little sisters and three brothers, and a large number of other relatives and friends who extend the deepest sympathy to the family.

Among the college boys to come home last week were, Shelton Poole

and Eugene McAskill from State College. Others will arrive with the girls in the next few days.

Archie McDuffie, of Eagle Springs, who was a student at Atlanta Dental College the past year, called on friends here Sunday.

J. E. Jordan, of Bertie county, is spending a few days with his family here.

A large number of visitors are expected here for the week-end for the opening dance on Saturday night. Music will be furnished by the original Virginia Serenaders. Some of the cottages are already occupied, and the prospects are looking good for the Jackson Springs Hotel, Johnson and Markham Houses.

A copper still was captured and a negro escaped on Thursday on the late M. M. Thomas place west of here, near Drowning Creek. Some criticism is made by officers letting the men escape from the stills captured, but some appreciate the many visits of Marlette and others into their section southwest and west of here. Yet the capture of stills is expensive to the taxpayers, and there are always another one to take its place. Why not get the ring leaders away from here?

Bring us your job work.

## The Turn of the Tide

The Best Authorities say the business situation has turned the corner; some go so far as to say that a lively gait is overtaking the nation and that the greatest real prosperity the country has ever seen is already starting up.

You might as well join in with the Hopefuls.

Make your noise with the cheerful side of your mouth. Tell the folks the Sandhills is all right, and getting more so.

It is what we think that leads to what we do.

Nothing in the world the matter with this part of the state now, IS THERE?

## EDGEMOORE HEIGHTS

Is going to be a Great Opportunity. ISN'T IT?

If you are not ready to get in on that chance, tell your neighbors about it.
