Mr. D. C. McCrimmon has been confined to his home for a few days by a severe cold.

S. F. Cole attended the North Carolina Rexall Druggists' Association in Charlotte, Wednesday and Thursday.

**ANNOUNCES REDUCTION IN PRICE**

No better indication of the increased demand for Willys-Knight and Overland closed cars during the current winter can be given than the announcement from Willys-Overland headquarters that prices on two of its most popular enclosed types have been slashed as a result of a factory output in excess of all original anticipations.

According to the announcement the price reduction affects the Overland Champion model, which has been reduced to \$655 from \$695, a cut of \$40, while the Willys-Knight standard sedan has been reduced \$100 to 1695. All these are Toledo factory prices.

Accompanying the announcement is a brief statement from John N. Willys, president of Willys-Overland, setting forth the reasons for this remarkable action:

"January and February production has exceeded all expectations. During the first month of the new year we manufactured 22,048 cars, more than double the output of a year ago. In February we maintained an average shipping record of more than a

thousand cars daily, closing the month with total shipments of 22,136.

"This remarkable increase in demand has stepped up production to a point where our production costs per car have been lessened. In case of the Overland Champion, for example, we find that we are able to maintain its position as the lowest-priced enclosed car on the market, with doors front and rear, because of the tremendous demand that has ensued since the original announcement of this model last Fall. We have stepped up our schedule on this model and even now are unable to cope satisfactorily with our dealers' demands.

Parallel conditions are accountable for the cut in price of the Willys-Knight sedan.

"During the current winter, demand for closed cars outstripped all anticipation," continues the statement. "In no single year of the industry has the sale of all-weather models advanced so rapidly as it has during the past six months. Our plants have been fairly swamped with orders for this type. The result has been increase in closed car production, with a proportionate decrease in production costs, in which we are desirous of allowing the public to participate."

Always be punctual when you make an appointment. It gives you a chance to take a long rest while waiting for the other fellow to show up.

Club women of Richmond County sold products to the amount of \$559.64 on the four Saturdays during which the curb market was conducted in February, reports Mrs. Anna Harris, home agent.

Sixty-eight women of Robeson county aided Miss Flax Andrews, home agent, to carry the message of more milk for better health to the children in 109 schools during a milk campaign recently held in that county.

OFFERS THIS WEEK  
A CARLOAD OF

**RICHARDSON SUPER-GIANT**

**SHINGLES**

The slate surface of the **RICHARDSON SHINGLES** offers a durability that is not surpassed. It also gives a permanence of color, for slate is as slow to fade as it is to wear.

The **SUPER-GIANT** is 10x14 inches, which saves a large share of the cost of laying... It is 50 per cent thicker than ordinary, which adds to durability, and its 100 per cent extra stiffness makes a roof that is without comparison in firmness.

These Shingles come in **Green, Red, Brown, and Blue-Black**, permitting a wide range of combinations of color on the roof, and affording a harmony with the other materials of the building.

Remember—the roof is the weak spot in a house, and that Richardson **SUPER-GIANT** Shingles overcome all roof weakness. Don't cover a roof without investigating the Richardson **SUPER-GIANT**.
