**EVERY MEMBER CANVASS**

Sunday March 15th has been design-ated by the general assembly of the Presbyterian Church U. S., as the day upon which the 438,000 members of this church shall be called upon through the method of the every member canvass to pladge \$4,750,000 for the benevolent enterprises of this church these pledges to be paid weekly throughout the church year beginning April 1, 1925.

The budget of \$4,750,000 is ap-portioned as follows: foreign mis-sions, \$1,581,750, assembly's home missions \$760,000, christian educa-tion and ministerial relief \$356,250, Sunday school extension and young people's work \$95,000, Assembly's Training School at Richmond, Vir-ginia, \$28,500, American Bible So-ciety \$28,500 and to the work carried on by synods and presbyteries \$1,900,000. The assembly has apportioned the total budget equitably among the 17 synods which have assigned quotas to the 988 presbyteries and by the presbyteries to the 3,555 churches. It is estimated that the sum of \$9,000,000 will be necessary for the pastor's salaries and local expenses of the churches of this denomination.

The assembly's stewardship com-mittee of this church which is in charge of the plans of the every member canvass calls upon all the churches to attempt in the space of two hours time on the designated Sunday to raise the amount of their benevolent quotas. When this quota is added to the necessary amount for current expenses and pastor's salaries in each local church it forms the total budget. A new plan for making the every member canvass is being tried in many churches. It is called the "Volunteer or Honor System Plan," which provides a method by which the membership of any local church in-stead of being canvassed in their homes, may present their pledges in

person at the church. The assembly's stewardship committee predicts the best canvass this year ever conduc-ted in the church.

Many farmers have no money to pay high prices for fertilizers this year and county agents of State College are wisely assisting them in buying the crude materials, working out good formulas and mixing the fertilizer at home.

Some farmers of Union County have reported to Farm Agent Tom Broom that they are receiving as high as \$200 per month from their poultry flocks.

**WHERE HOSPITALITY  
KNOWS NO  
CLOUDY DAY**

The strong merchantile concern of this section, and the one where you get the reliable goods for the right price. Remember to be in early in your fertilizer supplies. Spring has come with a rush and the quicker you get out your spring supply the more easily you will push your farming forward. The big cash discount was never equaled before, and the basing rate for all fertilizers we handle is so low that you can afford to be liberal in the judicious use of fertilizers on all crops this year.

With the advent of spring we are ready for the farmer in all depart ments. This is especially true of our implement and equipment outfit. Don't waste time fooling with old or inefficient machinery or outfit of any sort. Time is high-priced in these days of high labor cost. Making machinery do the work. It costs less than man or mule time. One reason farming is behind all other industries is because it is the one industry that works by hand and goes on foot while all other industries use machinery to the limit.

**BAGS, TRUNKS AND VALISES**

If you are taking a little jaunt this spring you want one of the fine new Traveling bags or trunks that we are showing this week. Bags and cases from two dollars to eighteen. Trunks from \$7.50 to \$16.50. They look nice enough to have one just for ornamental purposes if you have no other use for one. Look them over in the window at the Vass store. Good values and the prices are ground floor.

**DEWBERRY GLOVES**

Been coming in freely, and we have the varieties you want. Price marked to fit the dewberry man's pockets.

**CHILDREN'S SPORT HOSIERY**

For the small folks we have a novel line of three-quarter length spo rt hosiery that is going to make some of the girls happy. Odd things in the patterns and designs. Enough out of the ordinary to be worth looking at.

**MORE EASTER HATS**

Women's Hats have fooled us. We bought a lot of new type Straws for spring and Easter and the first announcement of them brought the buyers and we had to send a hurry up call for more. And now to be ready for Easter once again we have had to put in still further orders. It looks as if everybody is getting a new hat right now. Women's Hats at Little River are right off the griddle.

**FIELDS AND GARDEN SEEDS**

When you are ready to move your field and garden seeds better get them and have them on hand. Many seeds ought to be going in the ground right now. Seed potatoes, Oats, and the smaller garden seeds may be planted at once, and you should have some of that Eureka-raised big boll cotton seed for there is not enough of it for the late comer to be sure of a supply. The early bird usually catches the worm, and the late one gets jacked up by the family for coming home with no rations. Don't be a late bird.
