

**STRONG MEN BUY INTO PEACH WORLD**

(Continued from page 1)  
the South. Because the peach industry seems to have positive prospects if rightly handled. Mr. Milbank and Mr. Case have joined some others and formed the Southern Peach company. Ralph Page is president, E. Townley Latting, secretary, Walter I. Case vice-president, with \$200,000 stock subscribed, and already a big proportion of this has been paid in.

A total of 1,000 acres has been bought. The expectation is that this year the crop will be good and profitable. The argument is that the future looks attractive if sound management is followed, and it is assured that the peach if productive has been reached, for old orchards are dropping out, probably as fast or though faster than new one are coming in, and it is now established that to raise and maintain an orchard means work.

The field operators of the new concern will be Jesse Page, Howard Harrison and Chan Page.

An estimate as to the crop this summer announces that Georgia will have about 8 to 10 thousand cars of good fruit as against 13 thousand cars of bad stuff. Arkansas, Missouri and Indiana will be down in their yield. Virginia will be hit hard. It looks as if not our two-thirds of last year's crop will go to market this year, and the buying power of the country seems to be much brighter than a year ago, so the outlook is good.

But the crop is faced by a larger number of worms this year and the curculio is extremely prevalent. Orchards must work to the limit to prevent a wormy crop or we face one of the worst we ever had. But if spraying is attended as it should be and all drops carefully picked up a clean fruit can be expected, with good markets and good prices.

The coming of Milbank and Case into the field introduces a wholly new element, that of men who are interested on the broad basis of development of a section of the South, and with the understanding that it has to be done on the soundest business basis, and with costs held down and hard work made a factor in production

rather than the dream of high prices velvet and easy money.

**DOCTORS FEATURE KIWANIS MEETING**

(Continued from page 1)  
merchants to limit costs to buyers, nor other callings to prevent the things on which they thrive. But the doctor tries to keep the people well.

Dr. Carson, of Winston-Salem told of the doctor in the big war, and Dr. Barrows, of High Point, spoke of the hospital work of the state. He says 37 hospitals last year cared for 52,460 cases. A few years ago the state was without hospitals. Now it is fairly well provided, but still needs more. The generosity of Mr. Duke has made it possible for a great advance to be made in hospital work, but the medical profession which is carrying the burden of most of the hospital work still needs further substantial backing that hospitals may be available for a much greater number of cases than can be cared for yet.

The club has scheduled a game of base ball by members of the organization. It will be played on Saturday at Southern Pines, for an admission fee of 25 cents, the money to go to the educational fund. As the old war horses of base ball back in the days when Southern Pines and Aberdeen and the other towns mopped up the sand with each other will be resurrected for the occasion the affair is regarded as second to the big show of last week in point of interest for the spring season. It is said that when some of the old birds stretch themselves the show will be exhilarating.

Week after next the Women are to have a date at the Kiwanis meeting, at the Pinehurst Country club.

**NIAGARA**

**NIAGARA**

Mr. and Mrs. Delmarsh and sons, Guy and Donald, left Monday for their home in Inlet, N. Y. They have made their winter home in our village and have many friends here, both young and old.

Mrs. I. F. Chandler of Southern Pines spent Friday with her brother,

Mr. James Green, who has been confined to his bed for several months.

Mr. Jim Green left Monday for his home in Vermont, after spending some time here with his father.

Messrs. Maples and Knight of Southern Pines were business callers in this section, Thursday.

Mr. and Mrs. O. E. Bachelor and son, who have spent the winter months in Florida, spent a few days at the home of Mr. and Mrs. A. C. Blake, while enroute to their home in Gibson, N. H.

Alsie Pate, of Raeford, is spending some time here with his cousin, Clyde Tew.

Mrs. Gay and daughter, Miss Harriet, with Mr. Oscar Seward left Monday for their home in Farmington, Maine.

Mr. W. F. Smith of Raleigh spent the week-end here with home folks, before moving "headquarters" to Norfolk, Va.

Messrs. J. C. and Fred Thomas of Raleigh, were week-end callers in this section.

Little Nellie Doris Morgan spent the week with her grandmother, Mrs. R. A. Smith.

Mr. and Mrs. J. V. Snipes and family, spent Sunday with relatives near Pittsboro.

Mr. Jarvis Wright wishes The Pilot readers to know that it was twelve-thirty when he "got in" Sunday night. Some neighbors noticed Sunday night week that he enjoyed his News and Observer extra well. Perhaps a sketch of poor old Jiggs induced him to spend the evening at home.

**NEW STATION TO BUILD AT PINEHURST**

Francis Deaton is at work on the site for the new railroad passenger and freight station at Pinehurst. The location is near the new overpass of the railroad above the highway going north, and not far from the country club. Mr. Deaton has the plans drawn for the location, and is getting the work outlined on the ground, and work will begin soon on the structures. The passenger station will be of ample size to care for the growing business of Pinehurst, and the approaches and

surroundings will be in keeping with the needs of the community. The new bridge for the railroad will arrive before a great while, and iron will go down on the new grade that the railroad may be shifted to help with this construction and building work. Mr. Deaton has made comprehensive plans for the whole job in the neighborhood of the bridge and station, including freight station with the rest, and the Y switch, for turning cars and engines and handling the Pinehurst traffic. With the building of this work and the paving of the highway and the oil top on the Carthage road things will be materially changed in that part of Pinehurst during the summer.

**MONUMENTS & TOMBSTONES**

If you are interested in Monuments or Tombstones, write **Rockingham Marble Works** ROCKINGHAM, N. C.

A large and well selected stock of monuments, tablets, etc., on hand at all times. Quality, work and prices guaranteed. Equipped with latest pneumatic machinery driven by electricity.

Subscribe to THE PILOT.

**TOBACCO FLUES**

I will be in position to fill all orders for tobacco flues this year. Please place your orders early. Prices Reasonable.

**Keith's Garage**

VASS, SOUTHERN PINES, LAKEVIEW

**It is About Nitrate of Soda Time**

We have had to order in a few more cars of fertilizer, for always some find a little more is needed, and we will probably have enough for all calls, but the main thing in fertilizer now is Nitrate of Soda. We have an ample supply and a lot of it is engaged to be shipped as fast as we call for it. Leave orders at either store.

**Soja Bean Seed**

The extended use of Nitrate of Soda is said to have affected the production of cow peas as they used to be made. At any rate the cow pea is not what it was some years ago. But it has been supplanted in many places by the Soja Bean. Here is a crop that makes better hay, and is equally as good to reclaim and improve the soil. We have the hard shell varieties that make the best type of hay and that can be handled most easily on the farm. The Soja Bean is worth a much closer acquaintance by the farmer.

**A Checker-Board Feed Story**

The business of the Little River stores is to sell goods and make money for the stockholders. But we have a notion that to make money the way we want to do it means to benefit the people who buy from us as well as to benefit the Little River company. To sell some little thing and have a few cents margin, and then sell some other little thing for another few cents is not our idea of business. It is too much work, too little benefit to us or the buyer and gets neither of us anywhere.

**Now Take the Checker-Board Feed**

There is a product that is made to give results to the folks who use it. It is the work of chemists, anatomists, physiologists, biologists, manufacturers and many others. The first

thing these folks did was to find out what feed really does to an animal. Then they found how to provide the best combination to get the desired results. Then they built big mills to make the stuff. Then they made a contract with us to sell it in our territory. When we were satisfied that it was the real values we bought it freely. Our customers are buying it and finding it worth the money. We are building up a trade in it for it is decidedly good stuff.

**A Permanent Checker-Board Business**

So we are selling checker-board feed. And we mean to sell it for years. We aim to build a business that will sell itself. We want to sell something that will bring folks back to buy more of it time after time. We want to sell good goods. And Checker-Board is so good that we sell it with the assurance that when any other product gives better results we give you back your money.

**Chicken Checker Board**

You know what Checker-Board has been doing with the chicken business.

**Watch the White Pigs Grow**

One pound a day they get of Checker-Board, and it is weighed, not guessed. Pig Chow will do for pigs what chicken feed has been doing for chickens. It gives the pig an appetite, and it will make a puny pig call for vittles like a hungry boarder. Pig Chow will put health into the pigs and they will eat the stuff around the place and convert it into meat for you. Pig Chow is a feed and a stimulant.

**Watch the White Pigs Grow**

Then when you are satisfied we want to sell you some of the stuff that is making them grow. And we have Checker-Board for the cow, the mules, and all the stock.
