An Announcement to Dewberry Men--

From the time the Little River Stores were started it has been the intent of the company to sell things. We want to sell things to our patrons and sell things for them. We have had more or less success in selling to our trade, and we have sold a lot of things for our customers. We have sold so many eggs for our people that Little River Stores have come to be recognized as the egg market of this section.

Now For Dewberries

We have been satisfied that the dewberry men should have better facilities for marketing their berries, so last winter this matter was taken up with M. McL. Keithen of Cameron, and finally last week Mr. McKeithen wrote us that he will receive dewberries at Vass for shipment, which at last brings the market to the door of the farmers in this immediate section. Mr. McKeithen will have cars set in at Vass to be loaded under the direction of George Wooten, and farmers can deliver at the Vass siding instead of hauling by truck to Cameron to reach a car.

Few dewberry men need any introduction to Mr. McKeithen. For over twenty years he has been raising and shipping dewberries, and his knowledge of the business has enabled him to get such prices that he practically always tops the market, sometimes several cents higher than anything else that goes out. He has a wide personal acquaintance in the Northern cities and knows where to place fruit and when and how.

VASS A DEWBERRY CENTER

A great many dewberries are grown in the Vass region, and it has come to a point where the old shipment by express in small lots is entirely too costly and unsatisfactory. The only way to market berries or anything else is in quantities big enough to make full cars, and in that way avoid the expense of handling small units with all the detail attached to little lots. Therefore arrange your plans to bring your berries to Vass. Information as to cars, condition of markets, movement of berries, or anything pertaining to the industry will always be given gladly. Call in person at Little River Stores or telephone or write, and we will be glad to help you market your berries in the most satisfactory manner.

Marketing the Big Job With Berries

The big task in dewberries is to get the best results in marketing. There is no difficulty about making dewberries in this section, and every farmer should have a field of dewberries if he has marketing relations that will get him the right returns for his crop. Dewberries bring money at a time when it is mighty useful and a small piece of ground produces a big lot of berries. With Mr. McKeithen taking care of the marketing end at Vass that feature is simplified and the outlook is much improved.

Always When You Have Anything to Sell Consult The Little River Stores

We can't always sell everything made on the farm, but we can lend a hand with many things, and wherever we can turn a dollar's worth of stuff into money for the farmer we look on the transaction as one that adds just that one more dollar to the community wealth, and every added dollar brings us all so much farther toward prosperity.
