## Secretary Blackman, of National Rural Letter Carriers' Association Finds **Star Best of All**

I own a Star Touring Car which is used for both pleasure and the delivery of mail on my 30-mile rural mail route out of Lansing. During the past eight years on fural mail work I have driven. several of the so-called lighter cars and thought I was using as good as there was for my particular requirements. However, it is a pleasure for me to state that the performance of my Star Car is far and away ahead of any I have used in the past. The ease and certainty of shifting from one speed to another particularly appeals to me, as I average from 125 to 175 starts and stops per day. The economy of the Star Car in the use of motor oil is another considerable factor. As for mileage per gallon of gasoline, I recently had slightly better than 75 miles on 3 gallons of gas. The quick pick-up and getaway is a revelation. Throttling down in high speed to 2 or 3 miles an hour is easy and almost instantly you can accelerate to 40 or 50 miles an hour. Lansing, Michigan

L. G. BLACKMAN,

## FROCKS With Youthful Lines

The buoyancy of youth certainly is evident in these new Frocks-just arrived and ready for display. Shown in silks and crepe satins. Here you will find the popular puffed sleeves, front fullness and jabot effect. Some trimmings are in the same materials and others in contrast. Both novelty and conservative patterns are presented.
