James Thomas, of Pittsboro, nephew of R. C. Thomas is assistant of Mr. Thomas during the dewberry season.

I have received the following note, "Will you please correct a statement in last week's paper, relative to report of the sermon at the Baptist church, first Sunday night. The pastor had for his subject, 'Nehemiah's Prayer.' Incidentally he remarked that when the people really wanted rain they would get it. He said it might rain before the people wanted it, as our God is a merciful God, but if they wanted rain enough to ask for it, in the right way they would get it. This is the only reference he made to rain."

Miss Kathie Thomas, of Winston-Salem spent the week-end with home folks.

Mr. and Mrs. Hartsell Hendricks spent Sunday with relatives in town.

LITTLE RIVER STORES, INCORPORATED VASS - LAKEVIEW - SOUTHERN PINES

The management of Little River Stores certainly appreciates the letters that have been received from patrons concerning the Wednesday closing movement. The people realize that it is wholly for the relief of the employes of the store, and they approve of once-a-week holiday during the summer. This step was taken after consulting with the patrons of the store, and after hearing from them, there is no doubt that the act was a wise one.

REMEMBER THOSE FRYING SIZE CHICKENS—

For the next shipment which we expect will take place late in June or thereabouts. Summer money from poultry will look good.

Let us know what you will have in this line.

Time to fix Tobacco Barns, furnaces, mend roofs, etc. We have builders' supplies, Lime, Cement, Brick, Nails, and the many odds and ends you will be wanting, and they should be secured at once and the work done.

FEEDS AND FEED STUFFS FOR SUMMER WEATHER—

Omolene, the cool feed for horses and mules. Corn is too heating for work stock in summer. Experience has shown that a mixture with less carbon than corn contains, will get more work and better health for work stock. Scientifically compounded of nutritious elements.

FERTILIZERS FOR HELPING BELATED CROPS— REGULAR GOODS AND NITRATE OF SODA

It is our intention to supply the needs of all our nearby customers, and by consulting us, if it is available, we will help them to get anything they may still need, and at prices that will be the lowest. Our customers know what we have been doing in getting them low prices and reliable goods.

This is a somewhat backward season, but it looks like a good one if we give the crops the attention and help they need, and Little River is ready to lend a hand wherever anything can be done.

Our Savings Department

We wish to call your attention to the fact that this bank maintains a first class Savings Department. We receive on savings accounts any amount from one dollar up. On each account we compound the interest semi-annually, adding the interest to the account without any trouble on the part of the depositor.

Additions may be made at any time, and under normal conditions deposits may be withdrawn in whole or in part at any time. On these savings accounts we pay 4 per cent interest.

We recommend this kind of account to persons who have money for which they have no immediate use and which they want kept in a safe place until needed. The compounding of interest is automatic. This money is not idle, but is constantly making more money for you, accumulating for the rainy day or the day of need when other sources fail.

We would be pleased to have you call and open a savings account with us.
