**Procrastination  
is the Thief  
of Time-**

Perhaps you have no surplus money at the present time that you want to place on a bank account. But you expect to have a surplus at some future time, at "harvest time" perhaps, whatever it may be that you expect to harvest.

This is the time to make your provision for old age. Decide now that a definite portion of your income shall be laid aside every year, and then when old age comes you will be provided for.

Our savings department pays 4 per cent interest, compounded quarterly.

Make your plans now, and open a savings account with this bank. Make provision for the rainy day that comes to every one.

**FOR HOLIDAY BUYERS—**

This week and next will be given over largely to holiday buying, and it is a pretty custom that such is the case.

Little River Stores have made ample preparation for holiday remembrances. Toys and interesting things for the Little folks, for the children are the main factors of Christmas, which is the child's holiday.

But along with the toys and the decorations, and the less substantial things things we have kept an eye on the one fact that something substantial is more to the purpose as a Christmas offering than those things that are meant solely to be sold and given away because it is Christmas.

With the Oodles of Toys, and the Lots of Other Christmas Merchandise we are calling attention to those things that will serve a permanent use, and give the recipient the benefit of the money spent as well as a feeling of being remembered.

Think of a nice piece of Furniture, or Gloves, or Ties, or Caps, or Slippers. With money none too abundant this winter the friend you would like to remember would perhaps be better served if what you buy should have a practical use than if it is of little benefit.

Study this phase of Christmas Giving, and see what we have to offer.

**DON'T GAMBLE WHEN  
YOU BUY YOUR USED CAR**

The used car you buy represents so many unused miles of transportation. The price should be in proportion to this unused mileage which remains in the car.

Whether or not you get the unused mileage you pay for, depends upon which car you buy and where you buy it.

The Ford has more mileage built into it per dollar of cost than any other car. A used Ford therefore has more unused mileage remaining in it than any other car that has been used to the same extent. Consequently it is the best used car you can buy.

Being authorized Ford dealers we are experts on Ford cars and can give you a better used Ford for your money than any "free lance" dealer who handles any and every make of car.

We know every nut and bolt in the Ford; we know exactly the real condition of every used Ford we take in and what it needs to put it in good running order.

We don't allow extravagant trade-in-prices. We pay what the car is worth and sell it to you for that price plus the cost of renewing it. All work is done by our regular mechanics, with special Ford equipment and using only genuine Ford parts.

We have no interest in giving you anything but the biggest value possible because we want you to come back for your next car and we know that the only way we can bring you back is by giving you a full dollar's worth for every dollar you pay.

We have some very good used Fords at attractive prices on display now. Come in and see them and try them out if you want to. No obligation to buy.
