

**HEALTH CLINICS.**

Moore County and the North Carolina State Board of Health are offering protection by free vaccination against typhoid fever, smallpox and diphtheria, to every man, woman and

child in the county. Vaccination with typhoid vaccine is successful in preventing the disease as is also vaccination for the two other above mentioned diseases. In 1927 3,034 people in North Carolina had diphtheria and 272 died. Diphtheria

is especially fatal among children but young adults also die from the disease. Three treatments a week apart are necessary for typhoid and diphtheria and only one for smallpox. Treatments for typhoid and diphtheria are harmless and almost painless. Neither cause any sore.

The following clinics are arranged and we give the dates, places and hours below. Bring your whole families to these clinics. Choosing the one which is near you.

**CASH PRIZES OFFERED TO CALF CLUB MEMBERS.**

Calf club members in North Carolina who own pure bred registered Jerseys will have the opportunity to win some cash prizes through an offer recently made by the American Jersey Cattle Club.

"This club will donate as prizes for competition, a sum equivalent to three dollars for each member owning a registered Jersey calf," says L. R. Harrill, club leader at State College. "No award will be made where there

are less than five members in the club and in no case will more than \$50 be awarded in any one county, regardless of the number of members. In other words, if there are 15 club members having registered Jersey calves in a county, the cattle club will give \$45 to be used as prizes. This money may be divided according to rulings of the county agent."

To obtain this prize money, an official application blank must be filled out by the local leader, vouching for the awards and must be forwarded to the American Jersey Cattle Club at New York. Each application must be signed by the local leader and the State club leader before it is forwarded and the premium money will then be paid to the State club leader for proper distribution, states Mr. Harrill.

Mr. Harrill says that last year, only one-third of the money available to this State was used. Therefore he urges the calf club members to take greater advantage of the opportunity this year. North Carolina has some excellent Jersey calf clubs in various counties, with Alamance county having the largest club of this kind in the world. The club members in each of the counties should see that their clubs are well organized and that steps are taken for the premium money to be secured when the calf club shows or fairs are held. Those who wish application blanks may secure them from Mr. Harrill.

**HAS THE SOUTHEAST TOO MANY PEACHES?**

(Continued from Page Three.)

turer does not consign automobiles, clothing, soap, shoes, cigarettes, or whatever he happens to be making. He sells f. o. b. the factory, and guarantees the commodity to be as represented. Growers all over the United States are doing the same thing. Why can't we?

Fourth, it is probably worth while to at least give careful consideration to the auction method of selling on the big markets. Under the auction plan everybody would fare alike. If too many peaches were offered on any market, each distributor could withdraw in proportion to his offerings. No, there are not too many peaches.

# CELOTEX

At The  
**Pinehurst Lumber Yards**

Pinehurst, N. C.

One of the most interesting buildings in the Sandhills is the new Stone Club House at the Barber Golf Course beyond the Midland Farms.

The inside finish is Celotex, and Mr. Fuller the builder says he will varnish it and leave it in its natural texture and color.

That club house is a work of art, and Celotex fits in it exactly.
