What Do You Know About Fertilizer?

How many times have you asked yourself this question? Deep down in your heart you knew you often took what the store offered you and generally just trading.

There is a lot of "gambling" in farming, most of which is entirely beyond your control.

Forty six years ago the Acme Manufacturing Company began making fertilizer and building a reputation on the quality of their goods; believing that the "gambling" of farming is lessened by a quality of fertilizer made 50 per cent organic—50 per cent mineral. They have specialized and continue to do so, in this mixture. Satisfied farmers whose fathers before them bought Acme, proves that this policy is a wise one. When you get OLD RELIABLE ACME FERTILIZERS you know that you have the best possible fertilizer that can be made. Ask your dealer about ACME, if he does not handle it, write to this Old North Carolina Company. You want the best and we have it.

Let us hear from you. ACME MANUFACTURING CO. Wilmington, N. C. (Adv.)
