The Woman Pays

No woman ever wielded a coal shovel in a home heated with a Silent Automatic. To make the house warmer or cooler, she simply moves the thermostat pointer with her finger. Once a "Silent" is installed all heating cares vanish... no more "firing up"... no "toting ashes"... no "banking" at night... no scurrying for kindling. And the advantages of new house cleanliness and the improvement in family health alone will soon pay for Silent Automatic. Ask friends or neighbors about their "Silent"... or come in and let us show you the many features of this perfect oil burner. You will then be thoroughly convinced that you can install a Silent Automatic Oil Burner with confidence, convenience and economy—THIS SEASON.

FALLS OFF RAFT, DROWNS IN NEW WATSON LAKE

William E. Freeman, colored, 29 years old, of Jackson Hamlet, the colored settlement near Pinehurst, was drowned in the new Watson Lake between Southern Pines and Pinehurst Tuesday morning. He was engaged with other hands in towing out a raft toward the center of the lake when in some manner he fell overboard. Though there were many around who witnessed the accident, none was able to swim, and Freeman drowned before their eyes without any attempt being made to save him, it is said. One witness stated that the men had been pushing and shoving each other and having a general good time just prior to the mishap.

The body was recovered shortly after the accident, being located by Addison Rountree, who dove from the raft in search of Freeman, and was hauled to the surface with grappling irons. Although he had been in the water over an hour before the body was recovered, Freeman was rushed to the Moore County Hospital and worked over for some time, but without avail. This is the first accident to happen at the new Watson development since work begun there over a year ago.

ST. ANTHONY S. S. OUTING
