**Mayor To Enforce
Fire Co. Ordinances**

**Don't Try To Ride in Apparatus
and Don't Drive Car
Across Fire Hose**

Henry McCoy Blue, Mayor of Aberdeen, announced this week that two ordinances passed here in 1926 were to be rigidly enforced in the future. Both of these have to do with the fire department, and the announcement comes as the result of difficulties which the department has been having with civilians riding on the apparatus and motorists running over the fire hose. The ordinances read:

"It shall be unlawful for any person not a member of the Fire Company to get on, ride or to interfere with the Fire Truck unless called to duty by the Fire Chief. Any person violating this ordinance shall be fined in the discretion of the Mayor."

"It shall be unlawful for any person to drive across a fire hose in the Town of Aberdeen. Any person violating this ordinance shall be fined \$10.00 for each offense."

The Fire Chief has been instructed to watch out for violators of the above two ordinances.

The list of firemen for Aberdeen for 1931 is as follows: C. F. Brasington, Chief; J. G. Sloan, Assistant Chief; J. D. McLean, Secretary; L. P. Kellis, C. E. Pleasants, Jr., M. B. Pleasants, W. D. White, R. F. Tarlton, G. D. Martin, H. B. Russell, Gordon Keith, D. D. Cameron, E. B. Maynard, E. L. Pleasants, Jr., and William Mathews.

**FERTILIZER DEALERS TO
WIN SO. AMERICAN TRIP**

Twelve fertilizer dealers from six southern states will be taken to South America this fall by the Chilean Nitrate of Soda Educational Bureau, according to the announcement will be received from the offices in New York. The twelve dealers, two each from Virginia, North Carolina, South Carolina, Georgia, Alabama and Mississippi will be selected in a contest based on the efforts of the dealers to promote the use and sale of the Chilean product.

Last summer to mark the 100th anniversary of the first importation of Chilean nitrate to the United States a party of fifteen agronomists and agricultural experts were taken to South America to inspect the nitrate mines and plants and to visit the principal cities of Chile. The success of this trip toward explaining the value of proper fertilization influenced the Educational Bureau to offer the same opportunity to dealers.

The winners in each state, according to the announcement will be selected by an impartial committee of three judges selected from each state. The winners will be judged by reports which they will submit not later than July 1st, describing efforts to promote the sale of Chilean nitrate by personal contacts, speeches, demonstrations, newspaper advertising and the like.

The trip from New York and return will last about six weeks and expenses will be paid by the Educational Bureau.

**FINDS LOCAL CHAMBER OF
COMMERCE ORIGINAL ONE**

(Continued from page 1)

been accomplished in the way of sign-board elimination and the beautification of highways; Frank Buchan told of the parkway planting sponsored and largely carried out by the Chamber of Commerce, and also of the work of the unemployment committee in Southern Pines. Dr. L. B. McBrayer, last year's president, reviewed the work of his period in office and told of efforts of the chamber looking toward the completion of U. S. Route 1 as a paved highway.

**COMMUNITY HOUSE TO BE
READY IN TWO WEEKS**

(Continued from Page 1)

anticipate no trouble in their membership campaign. The proposition should meet with unanimous support, for its aims are community-wide. The Community House will be for one and all.

Upon completion of the old McKeithen house, one of the oldest in Aberdeen, as the home of the new organization, there will be a big house warming, and already plans are under way to make this one of the biggest events in the history of Aberdeen. Everyone will be invited to inspect the new home and enjoy the occasion.

ATTEND D. A. R. BRIDGE

Those from Carthage attending the benefit bridge given by the Alfred Moore Chapter, D. A. R., given at the Highland Pines Inn Monday were Mesdames L. W. Barlow, James Davis, L. P. Tyson, E. H. Morton, W. G. Brown and H. F. Seawell.

Theatre

Three-hundred miles of scene is the record established in Hollywood by the filmers of the new Leon Errol feature picture, from the hilarious Donald Ogden Stewart novel, "Finn and Hattie," which is the attraction at the Pinehurst Theatre, Friday, February 27th. The three-hundred mile scene was made when directors, players and technical workers for "Finn and Hattie," stepped aboard a Southern Pacific special train and shuttled back and forth between Los Angeles and Norwalk, Cal., while cameras and train wheels turned simultaneously. The multi-mileage footage shows the start of the Haddocks' ("Finn and Hattie," and their mischievous mite of offspring) trip to Paris, with Errol as Finn Haddock, Zazu Pitts as his wife, and Mitzi Green as his daughter. Lilyan Tashman, Regis Toomey, Mack Swain, and Jackie Searl, the "kid brother" of "Tom Sawyer" are also in the cast.

Mary Pickford's name, coupled with the well known play, "Kiki," will no doubt prove to be a big attraction at the Pinehurst Theatre, Monday and Tuesday, March 2nd and 3rd. Director Sam Taylor has taken the plot and made it into an uproarious slapstick comedy featured by the good acting of a fine cast. Mary Pickford forsakes dignified roles in "Kiki" and plays the hoydenish part with an abandon and a flair for slapstick that will amaze her admirers. Reginald Denny is excellent as the theatre manager who constantly quarrels with his wife and takes her back.

At Southern Pines

Brought to the theatre-going public by Radio Pictures, Edna Ferber's epic "Cimarron," at the Southern Pines Theatre, Thursday, Friday and Saturday, February 26th, 27th and 28th, is even more powerful than the great story read by millions in America. "Cimarron," the picture, is all that is gripping in "Cimarron," the story. Richard Dix as Yancey Cravat seems to have walked right out of the pages of the book. Lon Youngs will never be really slain until you see Dix do it, in the most poignant scene of talking picture history, the Osage gambling tent sermon episode. And those stupendous clashes of walls between Yancey and Sabra, as portrayed by Dix and Irene Dunne, should make the original story more than an epic. Spectacular scenes abound in this production, but they are a new kind. The stupendous land rush scenes, in which thousands of vehicles, animals and players appear is presented in such an ingenious fashion that the spectator is apt to feel himself a part of this spectacular episode.

Buster Keaton gets a "break" in his latest comedy, "Parlor, Bedroom and Bath," the attraction at the Southern Pines Theatre, Monday and Tuesday, March 2nd and 3rd. For the comedian is surrounded by beautiful young women in almost every sequence of the hilarious stage farce which has been adapted to the screen by Metro-Goldwyn-Mayer.

TAYLORS HAVE SON

Mr. and Mrs. W. R. Taylor of Goldsboro announce the birth of a son, William, Jr., Wednesday, February 25th. Mrs. Taylor was formerly Miss Mary McLean of Aberdeen, daughter of Mr. and Mrs. T. D. McLean.

Making safety
an actual fact

**THE
BLOW-OUT
PROOF
TIRE**

Things to think about
in connection with
Blowouts

At sixty you are going 88 feet a second.

You are two feet from trouble on a crowded boulevard.

It's only a split second from road to wreck.

On the brink of a hill at any speed a blowout is bad news.

Today every thinking motorist is seeking greater safety to meet modern driving conditions. The new Blowout-Proof Dual-Balloon makes safety a fact. Proved by tests that have amazed safety experts. General developed the Dual-Balloon construction and patented it.

With the Blowout-Proof Tire you are safe from the daily hazards that are causing the yearly casualties to run into staggering figures. Safe against the sudden impact of road holes and bumps that shatter the carcass of ordinary tires.

With so little time to act when a tire blows, plus the almost certain consequences of a serious smash, it doesn't pay to gamble with safety. Let us demonstrate. Experience this new safety and the easiest ride you've ever had on the lowest pressure ever known.
