The Revenue bill, embracing a 15-cent ad valorem tax on real estate, on a State-wide basis, for the support of the public schools, supplemented by a substantial increase in the tax on corporations and on incomes, has finally passed.

The Senate, last Thursday, by a 26 to 24 vote, reconsidered and adopted the conference report, paving the way for its adoption. Senator F. O. Clarkson, of Mecklenburg county, broke the tie by changing and voting for the measure, after the Senate had adopted his resolution which would prevent cutting of teacher salaries more than 10 per cent below the State schedule and not then until all other means of economy had failed. This also applies to all school folks. Senator Clarkson said he was unwilling to have the teachers made the goats and bear the big end of the brunt of the salary cut.

The Revenue Bill, it is generally agreed, will result in a deficit if the business and economic conditions continue as at present. Under normal or good conditions, it would produce enough or practically enough money for complete operation of the budget. Another provision has been enacted which permits the Governor and Council of State to issue short term notes, if necessary, to pay the full amount appropriated to schools.

The Machinery Bill, which sets out the method of valuation, taxation and tax collections, and the Appropriation for the next two years, are yet to be passed. It is possible that trouble

tions Bill, giving the various institutions government money on which to operate, departments and divisions of will arise over both of these, due to the provisions of the revenue bill. Some of the appropriations may be cut to try to help decrease the deficit.

The bill seeking to rearrange the Senatorial districts on the basis of the 1930 census figures has also had a hectic career. The bill adopted by the House and sent to the Senate approached a fair distribution of senators as to population, but the Senate killed it and adopted one which shifts only two or three counties in eastern districts and makes no effort to redistrict on the basis of population. The House probably will adopt it, although it leaves two senators in the east who would go normally to the west. The House reapportionment bill is a matter of mathematical calculation and not so much susceptible to politics. It will probably pass as arranged.

Governor Gardner announces the appointment of the five members of the Board of Agriculture, as provided in the act of the present General Assembly, by farming divisions, as follows: D. Reeves Noland, Haywood county, general farmer; J. G. Staton, Martin county, tobacco; Charles S. Young, Cleveland, cotton; George Watts Hill, Durham, Livestock; D. H. Bridgers, Duplin, truck grower. They take the place of the 10 members of the old board, named by Congressional districts.
