Educational System Debated by Kiwanians

Members | Argue Vocational Training. and "Mr: Bob" Tells "Truth" About Legislature

Scheduled speakers and entertainers Wednesday's Kiwanis Club luncheon, held at The Paddock in Southern Pines, but the day was saved by vocational education and "Mister Bob"

program was impromptu, caused by Conrad Waldie arising to tell a sad story of the young woman who went through four years of college to prepare for teaching in the schools of North Carolina, only to find upon application for a position that she could not be certified for the job. She had taken the wrong subjects. The story led to others, then to arguments for and against the school system, and before the smoke of battle had blown over, Dr. I. B. McBrayer, Superintendent of Schools H. Lee Thomas, Col. C. P. Hawes, Prof. Morton of Pinehurst, the Rev. J. Fred Stimson and others had all made speeches on the subject, enlightening and entertaining. The whole matter was referr- line, and not without success. ed by President Richard Tufts to the club's education committee.

Former Congressman Page spoke in lighter vein on what the late lamented General Assembly did and did not do. But he stated his remarks were chiefly on what it failed to do, inasmuch as both Senator Murdoch ter Bob" delighted his listeners.

FISHERMEN!

We advertised that we had put 7000 bass in Lake Dunlop and were going to allow the public to fish at \$1.00 per fisherman, if he did not catch fish we would make him a present of a fish dinner. We served just three fish dinners and had fishermen and ladies from as far as Thomasville, Ga. It did not pay to keep a cook all the time so we are now charging 50 cents for each fisherman without any guarantee. Fish frys can be served for 50 cents on a day's notice.

Use small live bait that you can catch in upper Lakeview or plugs for bass, and worms for perch and cats. Just stop at Mr. Dunlop's house before you get to the lake and leave 50 cents for each fisherman.

Remember, ten bass in one day is bag limit.
