Mr. and Mrs. Frank Miller and Mrs. Gray Miller of Winston-Salem were at Lee County Hospital Thursday to see their niece, Miss Frances Matthews, who continues quite ill.

Peter McGilvary of Florida is visiting his sister, Mrs. Flora McFadyen.

Mrs. Georgia Matthews spent Tuesday in Sanford with her sick daughter, Frances, in Lee County Hospital.

Andrew Muse Hemphill, Pete Phillips, William Parker, Jack Phillips and John Matthews were in Sanford Tuesday evening.

AUGUST WEATHER

August in the Sandhills gave us an excess of rain enough to bring the eight months average up to 37.65-100 inches, 27-100 of an inch over normal for that period, and towards the end of the month a greatly appreciated cool spell. The average normal rainfall for the month is 6.3-100 inches, and this August gave us 8.65-100, not breaking the record of August, 1898 with 12.5-10 inches.

The month, while not as cool as August, 1930, fell below the normal higher average, this being reckoned as a maximum of 89.3; minimum of 67.7, an average of 78.5 as against the month's figures, maximum 90; minimum 64.2; average 77.1, this being two and one half degrees higher than last August. Our hottest day only registered 95 while the lowest temperature recorded was 52. Heavy showers occurred on the 5th, 20th, and 21st.

A TIMELY INVESTMENT

During the past several months the securities of practically every business have been affected by general conditions. Not so with Life Insurance Contracts of sound Companies. During that time they have and do represent the same potential value as during the most prosperous periods. A few dollars invested annually in Life Insurance will not only be secure but will also provide for dependants, whom might otherwise be dependent, should you pass out of the picture.

ABRUZZI SEED RYE

NEW CROP — GOOD QUALITY

LOW PRICE

ABERDEEN HARDWARE CO.

Aberdeen, North Carolina

Aberdeen, September 11, 1931.

Mr. Tobacco Grower, North Carolina.

Dear Sir:

You are cordially invited to make our store your headquarters while in Aberdeen. We carry a complete line of drugs, medicinal supplies and fountain beverages, and a large assortment of practical gifts to take home to the family.

Cordially yours, BRYAN DRUG COMPANY.

NACO The Great Grass Seed Fertilizer

ENTIRELY ORGANIC, ENTIRELY AVAILABLE

When the Pinehurst Warehouses announced the highest type of Italian Rye Grass Seed at \$5.85 for the hundred pound sack, everybody was enabled to make a lawn at insignificant cost. But the seed is not the whole thing in making a lawn. For winter cover grass must be planted late. But grass is a slow grower under natural conditions. Therefore it must have a fertilizer that will start it off rapidly.

Naco is the Bendix Drive of the grass crop—the self starter. Naco is immediate in its action, for it contains immediately soluble nitrogen in organic form, which is available the day it is put on the ground. Cotton seed meal is a good fertilizer, but it takes meal from 30 to 90 days to dissolve and become active. Meal is a continuing fertilizer and is used as an ingredient of Naco, but Naco with its animal organic nitrogen starts at once. Its Peruvian guano content has never been surpassed. The phosphorous is supplied by the digested fish bones, and the potash by the addition of a little sulphate to help create disease resistance.

Four years on the Pinehurst Golf courses show what Naco will do. Look at the grass there.

When you get your grass seed get the Naco necessary to make a quick start and rapid growth of your lawn. Bet both in the same order.

TIME TO PLANT YOUR RYE CROP The Finest Abruzzi Seed Rye

COKER'S PEDIGREED SEED

Everybody knows the famous Coker Farms of South Carolina. D. R. Coker's products need no further recommendation than that they come from his farms.

THE PINEHURST WAREHOUSES

PINEHURST, N. C.

Pinehurst is the father of the lawn in the Sandhills. Pinehurst lawns depend on Pinehurst Warehouse Seeds. And Naco fertilizers.

Suppose it happened TONIGHT?

How would you provide shelter for your family if your house should burn tonight. Even though you may have insurance, are you sure that you have enough to cover a total loss? And even though you may have enough insurance is it written by an agent who will guarantee a prompt and satisfactory adjustment?

We will be delighted to appraise your property and check up on the amount of your insurance for you.
