**Why Risk Your Neck?**

Sooner or later worn tires are going to let go. That may be dangerous.

Honestly now, is it worth taking the chance of going into a ditch or having a smash-up due to a blowout, when you can get fine new Goodyears like these for so little money?

If you have any doubts about the condition of your tires, drive in. We will look them over and give you the low-down. You can believe what we say—we couldn't afford to be anything but on the level. We know that as well as you do.
