

## Ladies Plan Annual Used Goods Sale

### Woman's Auxiliary Asking Now for Used Articles to Be Sold Later for Hospital Fund

An event which attracts a great deal of attention each spring is the annual rummage sale held by the Woman's Auxiliary of the Community Church for the benefit of the Moore County Hospital. The name rummage sale is somewhat of a misnomer, for the class of articles offered is not best described by that term. Rather, we would call it a sale of used merchandise, with possibly some shop-worn articles—soiled by handling, perhaps, or otherwise slightly damaged.

In order for this sale, which will be held after the Carolina closes, to be the success it ought to be, the ladies of the auxiliary are asking the cooperation of hotel guests and cottagers. They announce that they can use all articles of clothing—men's, women's or children's—house furnishings, and any odds and ends that are being discarded.

Articles may be left with Mrs. Leonard Tufts, Miss Fannie Grey, or at the library with Mrs. T. H. Craig; or if inconvenient for the donor to deliver the articles at any of these places, call Mrs. Tufts or Miss Grey and the articles will be sent for.

Herbert D. Vail of Pinehurst reached the quarter-final round in last week's tennis tourney at White Sulphur Springs.

## Hot Days are Coming- Keep Cool and Comfortable in your Ford V-8 . . . .

**M**ORE than ever on hot days you will appreciate the thoughtfulness of the Ford V-8's makers in providing an easily-opened windshield which lets cooling breezes blow through to refresh you. In addition, you have a cowl ventilator and Clear-Vision ventilation in side windows. And on hot days you will appreciate the comfort and roominess of the Ford V-8, the almost effortless handling which allows you to arrive at the end of an all-day journey without fatigue.

The Ford V-8 might have been built especially for the South—so accurately does it meet motoring needs in the Southern states. For instance, Ford is the only car in America which water-cools not only the complete cylinder walls, but also the upper half of the crankcase. This unique

5½ gallon cooling system reduces cylinder wear and greasy, lowers oil temperature in the crankcase. This means greater oil economy and is seconded by directed, air-flow, crankcase ventilation which reduces corrosion, lessens oil dilution and cuts sludge formation to a minimum . . . In the spring and summer months you and your family spend more time in your car—be sure its engine is designed to run efficiently in hot weather and that passengers will keep cool and comfortable.

Ford V-8 owners get safety-glass all around, an all-steel welded body, built-in luggage compartment, fenders to match the body and 6.00 x 16" air-balloon tires at no extra cost. See the new Ford V-8 today. Get the thrill of 8 cylinder performance. Drive the new Ford once and you will buy it.
