**Theatre**

Barbara Stanwyck plays her first comedy role in "Red Salute," the rollicking comedy, which is the attraction at the Southern Pines Theatre matinee. As Drue Van Allen, a madcap college girl, she meets a series of thrilling and amusing adventures when she is stranded across the Mexican border with a young buck private, played by Robert Young. In the language of the Hollywood Reporter, it is "swell entertainment with a nice romantic yarn, plenty of laughs, fast direction and timely flavor. It's in the "It Happened One Night" vein, but sufficiently different in trimmings to enable it to stand on its own. It clips along with a laugh almost every hundred feet; so crisp, smart and wise-crackery and alert is the snappy dialogue. It shows that the Stanwyck standard from now on should be comedy, for she knows how to handle it much better than the storms of emotionalism she used to rage into. The one thing that can't be overlooked easily is the misrepresentation of the title. No bloody massacres of the Reds were in evidence, nor was the U. S. S. R. ready to tear down Washington diplomacy, but it is stacked full of laughs; the dialogue is smart, and the fun is clean. In the cast is also Cliff Edwards who scores big in the comedy and does a bit of his well known singing, while Robert Young is right in his element as the Buck Private in the United States Army who seems to have a penchant for getting into trouble. One of the most beautiful of all screen romances, human, tender and superbly acted, which will be followed breathlessly by patrons in all walks of life and undoubtedly will cause as much word-of-mouth publicity as anything shown in years, is "The Dark Angel," the attraction for Thursday, Friday, Saturday, October 31, Nov. 1, 2., with a Saturday matinee. The story of the beautiful tenderness of a love that grew from childhood to wartime in a picturesque English countryside, spoken softly and convincingly honest, sentimentally though never mawkishly, is brought back in sound after a decade in Samuel Goldwyn's production of Guy Bolton's stirring play. Frederic March, Herbert Marshall, and new, no longer exotic Merle Oberon, John Halliday, all turn out a merit-packed picture from opening shot to finish. An added attraction is the feature length feature, "Wings Over Ethiopia," a timely natural combining thrill entertainment with topical interest, with exciting incidents caught from the air. Starting out from Switzerland the airship with camera, traverses Italy and then heads from the Suez Canal on its way to Ethiopia; where native troops are shown on parade, strange rites of the tribesmen are filmed and views of the country's terrain, natural resources and activities are picked up. The wailing of native rhythms from modern brass bands, and many other informative and humorous subjects grip the interest. On account of the length of the program, the show will start at 8:00 p. m. with "Wings Over Ethiopia" instead of the customary hour of 8:15 and the Saturday matinee will start at 2:45.

**THE NEW FORD V-8 FOR 1936**

**Why do we say The New Ford V-8 for 1936?**  
**What is new about it?**  
Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.  
You may buy a car on minor "talking points"—some specially advertised feature "with the car thrown in"—but after all, it is the engine you buy when you buy a car. Hence we put the engine first.  
**Other new points about the car make a long list.**  
**Its lines are much more beautiful.** The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.  
**Ford upholstery—always of sterling quality and excellent taste—is rich and enduring.** The appointments of the car have a new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.  
**In more practical matters, many improvements have been made—**  
**Steering is made easier by a new steering gear ratio.** The cooling system circulates 5 1/2 gallons of water through a new, larger radiator. Natural thermosiphon action is assisted by two centrifugal water pumps. New style hood louvres permit a rapid air-flow around the engine.  
**Easier, quieter shifting of Ford gears—**  
The gear shift lever now travels a shorter distance.  
**The two qualities you want in brakes—**Brakes that stop the car with ease and certainty, Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.  
**Safety—as always—in the electrically welded genuine steel body.** Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.  
**A car you can drive without strain all day, if you like, in city or country.** Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8—driver and car easily get on terms of good understanding with each other.  
**An engine has much to do with the roominess of a car.** Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.  
**It really is a great car in every way,** this 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.  
**LOW FORD V-8 PRICES**
