

Past Three Years Good to the Farmer

Congressman Lambeth Praises AAA, Purchasing Power and Live-at-Home Program

Featured by an address by Congressman Walter Lambeth, the annual meeting of the Moore County Federation of Home Demonstration clubs was held in Carthage last Thursday with approximately 200 men and women present.

Mr. Lambeth discussed the economic outlook of the farmers three years ago and the present. He brought out that three years ago a farmer could not make a living on the farm and the auctioneer's cry was heard everywhere. He gave as the causes of collapse of agriculture the tremendous surplus, the debt situation, the high interest rate and the high tariff policy of the country for a great many years.

The change in the last three years has been due to the AAA program reducing the farm surplus, the purchasing power of the farmer, and the live-at-home program. He cited North Carolina as taking the lead in the live-at-home program back in 1927. He urged the home to keep records for information and future plans. Quoting Theodore Roosevelt, Mr. Lambeth closed "Do what you can, with what you have, where you are."

Mrs. W. J. Harrington, Jr., presided at the meeting. W. H. Currie, chairman of the Board of County Commissioners, brought greetings. He said the farm women could get what they wanted for two reasons: they never asked for impossibilities and when they made requests they knew what they wanted, its use and cost. He commended the women on their work. Mrs. Ben Gulledge of the Springfield club responded. Mrs. J. M. Guthrie presented the speaker of the day and E. H. Garrison, Jr., farm agent, presented Mr. Jones of State College. Mr. Jones outlined the rural electrification program.
