Congressman Warren Sets Fifty Million Dollar Goal for Benefit Payments

J. B. Hutson, U. S. Agriculture Department chief, this week estimated the administration's new farm program would retire approximately 30 per cent of tobacco acreage production this year.

He told a meeting of tobacco state congressmen, meeting in the office of Representative Warren of North Carolina that such acreage restriction should mean about a 640,000,000-pound flue-cured crop this year.

Members of Congress from the states of Virginia, North Carolina, South Carolina, Georgia, Tennessee, Kentucky and Connecticut attended the meeting. Speaker Byrns also was present.

The meeting also considered the amount the new tobacco program will benefit from the new \$500,000,000 agricultural relief fund.

Warren said a \$50,000,000 goal was set for tobacco benefits under the program and that conferences would be held later with Secretary Wallace to consider the matter.
