

Parking, Telephones, Discussed by Chamber

Pinehurst Civic Board Takes Up Matters of Improvement Along Various Lines

The regular monthly meeting of the board of directors of the Pinehurst Chamber of Commerce was held yesterday noon at The Berkshire and after lunch adjourned to the club room where matters of interest to the village and community were discussed.

With President Wesley Viall presiding a report was heard from the committee attending the Kiwanis Club's safety program meeting and considerable progress was reported, particularly along the line of the cooperation of Pinehurst villagers and others in more careful driving in the village and especially in the two school zones. A related subject, parking in the village, was also discussed. The hope of the Chamber is that permanent parkers will place their cars in places that will provide visitors and shoppers convenient parking. Great difficulty is reported near the new postoffice building and a committee composed of A. S. Newcomb, chairman; Gordon Cameron and L. L. Biddle, II, was appointed to go over the entire matter and in cooperation with Pinehurst, Inc., officers and the village council to bring in a written report on the matter and especially provide for increased parking facilities for permanent parkers, possibly near the rim of the village green.

Much progress was reported relative to trash removal and it was pointed out that each householder and business house could add greatly to the cleanliness of the village by recognizing their responsibility to see that all rubbish is placed in closed containers, since the obligation of the trash remover does not go beyond the emptying and hauling away of the trash from the containers.

Gordon Cameron reported that a State patrolman was now stationed in Pinehurst and would be there to assist local officers in enforcement of traffic regulations.

Several and many were the complaints made as to the poor service of the telephones in the village. Due allowance was made for recent bad weather conditions and the reports indicated that local telephone officials were perhaps not responsible for the difficulties. The general opinion was that much of the trouble was due to poor and improper installation of cables, and especially to effort of the telephone company to operate the service without a Pinehurst exchange and service department.

Because of the busy season the date for the holding of a meeting of the entire membership of the chamber was postponed until the April meeting of the board.
