

Hemp Defeats CCC and Southern Pines

Takes Two Games in Sandhills League During Week—Aberdeen Defeats Biscoe

By Tom Millar

Two games were played in the Sandhills League this week, Hemp winning a pair of contests, one from Southern Pines and the other from the Army No. 5 outfit.

In a game played at Hemp on Wednesday, the home team downed the Southern Pines players by a 9-3 count. Infield errors, a walk, and a pair of Texas League singles gave the winners five runs in the first frame, but both teams settled down and played good ball the remainder of the way. Parker, Southern Pines pitcher, fanned 11 men during his seven inning stretch on the mound. Stutts, for Hemp, was hit hard but the losers were unable to come through with men on the bags.

On Saturday the Hemp team was host to the Army No. 5 boys and treated them to a 10-3 drubbing, pounding the camp pitcher hard and being tingly with base hits for the visitors.

This leaves the Sandhills League standings for games through Wednesday as follows:

Team	Won	Lost	Pct.
West End	2	0	1.000
Hemp	2	1	.667
Army No. 5	1	1	.500
So. Pines	0	3	.000

Aberdeen started play in the second half of the Peach Belt League by defeating Biscoe, 5-3, in Aberdeen on Wednesday.

Ray Scarborough, young pitcher, hurled hitless ball until the seventh inning.

Dunlap hit a homer for the losers.

Arrival of the Women at Jamestown

By 1620, the colony of Jamestown had grown to four thousand strong, and shipped forty thousand pounds of tobacco to England. The next year, a very desirable accession was made—the shipment of "respectable young women for wives of the colonists who could pay the cost of transportation" — 150 pounds of tobacco.

Even the most discriminating cannot help but approve of the simplicity and good taste of our services.

Farmers of County Organize and Temporary Officers Are Elected

J. D. McInnis President.—Aims and Purposes of Farm Bureau Outlined by Official

By E. H. Garrison Jr. County Agent

The meeting last Wednesday for the purpose of setting up a farmer's organization in the county was well attended. It seems that a good many forgot this meeting until it was over. As was explained in the letter sent out, it is felt that there is need of a good strong farmers' organization to look after the farmers' interests. Practically all industry is organized at the present time but the farmer. As a result of this, at times the farmer has not received his share in a great many things.

If you are willing that things should continue on in this manner and the farmer take what he can get, then I would not join this organization. If you would like to better your condition, then I feel that it is up to every farmer in the county to join an organization. Mr. Gray of Alabama, representing the Farm Bureau, a real farmer himself, made a most interesting talk on the Farm Bureau, its aims and purposes. This organization and the Grange seem to have done more and been more interested in the farmer than any other organizations up to the present time. Membership in the Farm Bureau only costs two dollars per year. And this takes in the whole family. Out of the group here Wednesday we got 21 members and a good many others told us that they would come in and sign up this week.

Aims and Purposes

The aims and purposes of the Farm Bureau are laid down as follows:

1. Plans for action in case tobacco price levels are below parity when market opens in 1936.
 - a. Close markets.
 - b. Keep them closed until farmers, Government and buyers agree on plans and policies for parity prices.
 2. Adequate legislation to control movement of scrap tobacco.
 3. State Compact Legislation in conjunction with tobacco states to control acreage planted and pounds sold in excess of quota to balance supply with demand, by penalizing excess. Administration of Act by State Extension Service and farmer selected committeemen in cooperation with U. S. Department of Agriculture.
 4. Passage of law required by Federal Government for States to participate in the Federal Soil Conservation and Allotment Act, by 1937 Legislature.
 5. Adequate appropriations for Agriculture Extension Work and Vocational Agriculture.
 6. Adequate road fund set aside for farm market roads.
- The time has come, according to

statements from President Roosevelt and Secretary Wallace, for farmers to organize if they hope to get the most out of the Administration efforts to aid farmers.

This is the first time a National Administration has made an honest basis with industry, whereby farmers effort to put Agriculture on an equal may secure a fair share of the National Income.

Temporary officers were elected Wednesday as follows: J. D. McInnis president; W. E. Kelly, vice president, and E. C. Mattheson, secretary & treasurer. Any of these men will be glad to take your dues and give you a receipt. If you do not have a chance to see any of them, you may leave your money here at the office and a receipt will be given you or mailed out to you. A drive for more members will be put on in a short while. Before this drive closes we are hopeful of getting a large membership in the county.

F. D. R. GIVES CIVIL SERVICE STATUS TO POSTMASTERS

President Roosevelt this week issued an executive order apparently designed to remove first, second and third class postmasters from the field of political patronage.

The order specified that in the future the applicant for such a vacancy making the highest grade in a competitive civil service examination shall win the appointment, regardless of his political affiliations.

Incumbent postmasters may be reappointed at the expiration of their terms only if they are proved eligible in a non-competitive service examination.

The order also provided that classified employes in the Postal service may be promoted to postmaster-ships when vacancies occur if they pass such a non-competitive examination satisfactorily.

Heretofore, incumbent postmasters have been eligible to reappointment without examination, or any of the three highest eligibles in a competitive examination could be appointed. Limitation of such appointments to the highest eligible was considered the most important change in the new regulations.
