

## G. O. P. IN MOORE BEGINS CAMPAIGN FOR HON. GRISSOM

Republicans Claim North Carolina Should Have Party Representation in State Affairs

### HIT AT HIGH TAXES

This column is to be dedicated to the purpose of securing the election of Hon. Gilliam Grissom, as Governor of North Carolina and also to the election of all County and State nominees for office who are supporting him.

There are twenty-five hundred Republicans in Moore County who pay as much, if not more, taxes than all the Democrats and yet these people are not allowed even minority representation on the Board of Commissioners. There are three townships in Moore County that are almost two to one Republican and yet these taxpayers are not allowed minority representation.

From a state-wide standpoint the condition is still worse. There are 250,000 Republicans in North Carolina who as tax payers are not allowed minority representation in any function of the state government. Those Democrats in North Carolina who would like to see a square deal politically, have been kicked out the back door by ring machine politicians who have been naming governors eight and twelve years prior to the primary. Plutocrats naming candidates and voting absentee ballots by as many as a hundred thousand have well nigh destroyed free government in North Carolina. It has resulted in a "quintuplet" taxation system in this state and taxes have been used to further the interest of machine politics and the nominating of the candidates of designing plutocrats. Any political organization that can at will vote a hundred thousand absentee ballots is a fraudulent and dishonest organization and such political tactics ought not to be tolerated. North Carolina needs to rid itself of this "gang" for in truth there is no other way to refer to such an organization.

Each week we will discuss important issues in this column. Why was it necessary for the Commissioners to increase taxes in Moore County when we have spent hundreds of thousands for relief and have to pay sales tax for schools? What about the school book "racket" in North Carolina? Will the people of North Carolina elect a man Governor who was chosen by a group of plutocrats over ten years ago and finally nominated by voting a hundred thousand absentee ballots?
