REPORTS QUALITY COTTON CROP IN NORTH CAROLINA

The quality of the North Carolina cotton crop is surprisingly good this year, according to a statement made by M. G. Mann, general manager of the North Carolina Cotton Growers Cooperative Association. Mr. Mann quoted figures from a statement recently sent out by the United States Department of Agriculture, and he also said that the samples classed to October 1st show that 88 per cent of the cotton stapled 15-16 inch and longer, and that 83.2 per cent graded middling and better.

"These figures are right in line with the percentage of the cotton being received by the Association, grading middling and above and stapling 15-16 inch and longer. The premiums which the farmers are receiving this year when they sell their cotton on a grade and staple basis are the highest that they have received in many years, if ever before," Mr. Mann said.

The astonishing story of GULFPRIDE

THE WORLD'S FINEST MOTOR OIL

THE results you get from GULFPRIDE OIL can be obtained from no other motor oil in the world!

For only GULFPRIDE is made from choice Pennsylvania crude . . . refined to equal the best motor oils on the market . . . and then further refined by Gulf's exclusive Alchlor process.

This process was developed by Gulf after 15 years of scientific research—the kind of painstaking research that is behind every Gulf product.

Read the facts below. Then replace your summer-worn oil with GULFPRIDE now. At all Gulf dealers.

(Left) BEATING THE BEST. No other process refines oil so thoroughly as Gulf's Alchlor process. When a blend of 6 of the finest Pennsylvania motor oils—already highly refined—was put through this process, 20% waste came out. Proof that the Alchlor process makes GULFPRIDE finer than the finest other Pennsylvania oils.

EASTERN AIR LINES' Great Silver Fleet uses GULFPRIDE only in every one of its 21 mighty planes. No other oil will do, because no other oil can match GULFPRIDE—the world's finest motor oil—for safety, stamina, and low cost per mile!

A GULFPRIDE USER drove from Bennington, Vt. to Portland, Ore., averaging 400 miles a day. He did not add a single drop of oil. An unusual record, yes. But expect GULFPRIDE to take you farther before you need a quart than any other oil you ever used.
