

## Patch Department Store 40 Years Old This Week

C. T. Patch, dean of business men in Southern Pines, this week celebrates his 40th anniversary in the mercantile adventure he started way back in 1897, and in all that time he has only moved a few hundred feet from the original building located on the site of the present McBrayer Building. The above illustration shows the store of 1909, then one of the few brick buildings in town, and the addition of 1927, this taking in all the corner for many years occupied by the Citizens Bank. The sign over the older building is still C. T. Patch, but the business is known all over the Sandhills as the Patch Department Store.

## "Thrifty Pig School" at Carthage Jan. 22

## Extension Swine Specialist To Talk to Moore Farmers on "Hog Management"

H. W. Taylor, extension swine specialist, will conduct a school on "Hog Management" at Carthage High School on Friday afternoon, January 22nd, beginning at 2:00 p. m.

"It is to the interest of every farmer in Moore county who grow hogs,

either for the market of his own use, to be present at that meeting as two moving pictures will be shown, says E. H. Garrison, Jr., County Agent. "One picture will show the proper management and feeding of hogs and the other in disease and worm control. Mr. Taylor will also conduct a discussion regarding the growing of hogs in this section. As the discussion will last for some time, we are beginning the meeting promptly at 2:00 o'clock.

"If you have tenants on your farm bring them along or see that they

are present. Good hogs are important to them also.

"It is estimated that under our present method of growing hogs worms alone slow up the growth of hogs as much as 20 percent. In other words, if you keep your hogs under average conditions, worms get one out of every five bushels of corn you feed to your hogs. Therefore it will be money in your pocket to be present and take part in this discussion and secure from Mr. Taylor a satisfactory method of controlling worms in your herd.
