C. Council, superintendent of this phase of construction for the general contractor, James I. Barnes Construction Company.

The footings should be poured by the end of this week and then the foundation walls will rise. That work should take about three weeks, according to Mr. Council, and immediately thereafter work will commence on the superstructure.

QUESTION:
 Is it worth while for Camel to spend millions more for finer Tobaccos?

ANSWER:
 Camels are the largest-selling cigarette in America!

IT is homespun fact that nothing man does to tobacco can take the place of what Nature does. People prefer Camels because Camels are made of **FINE, MORE EXPENSIVE TOBACCO**—Turkish and Domestic—into which Nature put extra goodness.
