Last Word in Convenience

The desire to make a car reflect its owner's individuality is a potent factor in the average motorist's choice of accessory equipment. And it would be hard to find a more thoroughly "personalized" car than this new Chevrolet in which Mary Pickford is shown applying a touch of makeup. As if the handy illuminated vanity mirror were not enough, the car has a special kit of Mrs. Pickford's own famous beauty aids, now on the market under her name. The container, holding lipstick, rouge, powder and cream, folds neatly up into the glove compartment when not in use. Inset shows close-up of vanity case.
