

TO SHOW CATHEDRALS OF OLD ENGLAND SUNDAY NIGHT

"The Cathedrals of Old England" will be the sacred lecture title when John Everington, lecturer-artist of "The Everington Travel Hour" comes to the Church of Wide Fellowship next Sunday evening at 8:00 p. m. Mr. Everington will bring a delightful hour among the beautiful and historic shrines of England in a vicarious pilgrimage to the earliest known worshipping places and altars where primitive forms of public worship began.

Beautifully colored pictures will carry one to the ancient churches and cathedrals which have been the pride of England for centuries illustrating the Christian faith and devotion of our Fathers as that faith was expressed in these poems of stone. Your own faith and life will be greatly enriched, and your love of the beautiful will be deepened by these pictures and their story.

KIWANIS LEARNS ABOUT UNEMPLOYMENT FUNDS

Members of the Sandhills Kiwanis Club learned about Unemployment Compensation from the State director, E. W. Price, on Wednesday at their weekly meeting in the Southern Pines Country Club. In fact Mr. Price went fully into the subject of Social Security and all its branches, of which unemployment insurance is but one. He told of what had been accomplished in North Carolina in the past three years: \$33,000,000 has been taken in to the unemployment fund. \$13,000,000 paid out, leaving a \$20,000,000 fund against the future.

Average Temperature For Month 7.5 Degrees Below Normal—19 Days Clear

March of 1939 surprised the Sandhills with an average temperature 5.4 degrees above normal. For another surprise, March of 1940 recorded an average temperature of 7.5 degrees below normal.

Nineteen days of the month were all clear, eight days cloudy, five days with rain, and one day with snow. The total rainfall for the month was 2.21 inches, .65 inches less than normal. The deficiency for the month is now 2.40 inches.

Ten days of the month registered 70 or above, the highest 78 degrees on the 18th. The lowest temperature for the month was 18 degrees recorded on the 25th and 26th. Spring came in at noon on the 20th, a clear day, maximum temperature 73, minimum 41.

Easter Sunday, the 24th, with a low temperature of 25 degrees gave the Sandhills a snowfall of four inches, the first Easter Sunday snowfall in the memory of the oldest inhabitant. The records do show ten inches of snow the day before Easter Sunday, April 4th, 1915.
