When 7046 was called, James Cagle was the defendant. He pleaded not guilty of breaking and entering the home of Alex Goins on September 8th and stealing \$3.00 and a pair of pants. No. 7048 was called, and again the defendant was James Cagle. This time, he was charged with assaulting John Goins with a deadly weapon on September 1st. Again, six months on the roads was the sentence, this to begin at the expiration of the sentence in No. 7047.

Alton Campbell, white, of Carthage R. F. D., charged with assaulting his wife with a tobacco stick, was found guilty and given a three months road sentence, which was suspended upon payment of the costs and upon condition that he behave himself toward his wife and not violate the law during the next two years.

Which of the Two Do You Want to Spend Your Money?

When you read in the paper of the huge income tax paid by some movie star, or when you read that the heirs of some rich man had to pay two or three million dollars in inheritance taxes, you probably say, "Well, that is one thing I don't have to worry about!" But, don't fool yourself, for **YOU PAY PLENTY.**

Nearly one quarter of your rent money goes to the Government, in taxes.
When you buy a loaf of bread, about 7 percent goes to the government.
When you turn on the electricity, you turn on the tax. From 6 to 8 cents of the purchase price of a pack of cigarettes is a tax. When you get out the car for a nice drive, the Government is directly interested—it gets about a nickel for every ten or fifteen miles you drive. So, you see, either by hidden or open taxes, **YOU PAY PLENTY.** If you receive around \$200 per month salary and pay rent, you pay the Government about \$25—**YOU PAY PLENTY.**

YOU PAY PLENTY of taxes, which gives you a direct interest in the Government. **YOU PAY PLENTY** of taxes and, on the whole, you do not seriously object to this, **PROVIDED** your money is well spent. And that is the point in question. Lots of money has been spent and much more will be spent, and all of it will come from the **TAX PAYER** in one form or another.

That is why **YOU MUST CONSIDER CAREFULLY** before voting on November 5.
When you vote, **YOU ARE DECIDING** on this question—**WHO** will **SPEND YOUR** money?

On one hand, you have a cheerful, personable gentleman, who has more than **DOUBLED** your national debt, has spent **TWICE** as much in 8 years than was spent in the previous 13 years, and you can see what you have to show for it; still on your hands 8 to 11 million men unemployed after 8 years.

On the other hand, you also have a cheerful, personable gentleman named **WILLIE**. His **BUSINESS RECORD** shows that he cut the cost of electricity, expanded his Company's business and **PUT MANY MEN BACK TO WORK**, when he was put in charge. He is a **SUCCESSFUL BUSINESS** man. He knows how **HARD** it is to **EARN** a dollar. He has always been a **PRODUCER**.
