How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 42), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells.
Just get more fresh air, a bit more sleep and if you need a reliable "WOMAN'S" tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and banish calming jittery nerves and those disturbing symptoms that often accompany change of life. Pinkham's is WELL WORTH trying.
