## Dramatize Your Rooms With Crocheted Rugs

THE vogue for rug-making is sweeping the country—it's fascinating work, and the finished rug will do wonders for your rooms on a limited budget. A crocheted scatter rug such as this one in cotton rug yarn will fit in the smartest living room and be equally charming in a bedroom, nursery, sunporch or playroom. Use colors that will pick up the tones of your curtains and your upholstery and tie your room together. There's no upkeep cost to a cotton crocheted rug—it can be popped into the tub when soiled, and its lovely colors will stay fresh as a daisy because the new rug yarns are bolifast. Directions for crocheting this rug may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of The Pilot, specifying design No. 4.

Dear Julie

Sue and her whole crowd are getting all excited about clothes for college. They have practically spent the last three days in TOTS' TOGGERY buying Gay Gibsons and Mary Muffets. The College Entrance Requirements are at least two date dresses, two semi-sport dresses for dinner and church and any number of sport dresses for classes and in-between get-togethers—according to Sue. Of course, I've peeked at school dresses for me and there are some yummy ones, but I come after Sue.

Love, Penny

School days are approaching. We give the same care and attention to children's, misses and youth's clothing as we give adults. Send them back to school in freshly cleaned clothes.
