W. C. Wicker of Aberdeen Dies of **Heart Attack**

Dean of Sandhill **Printers Was Active** Church Worker, Also

William Cleveland Wicker, 60, lean of Sandhill printers and a consecrated church worker, died suddenly at his home in Aberdeen at 11:00 o'clock Thursday night, February 1, of a heart attack.

Born near Sanford, Mr. Wicker came to Moore County to live over 50 years ago. He learned his trade in Pinehurst and became widely known as a printer, having the reputation of never putting out a job that was not of the highest quality. Mr. Wicker worked with the old Sandhill Citizen in Southern Pines, for a while as foreman, then as manager. He was associated with The Moore County News in Carthage, a printing company in Raleigh, and with the Cole Printing Company in Sanford before establishing his own print shop in Southern Pines, which he operated for about three years. He moved to Aberdeen in 1927 and for many years up until his death operated under the name, Dixie

Mr. Wicker's other special interest in addition to his printing he had served as clerk and trustee and at the time of his passing was a member of the Board of Deacons. He spent much time in helping in the work of country religious organizations, and was largely instrumental in the building of Beulah Hill and Thagard -Continued on Page 5)

TEN CENTS

'AGGRESSIVE FOX

Hearing his chickens making a noise a few nights ago, Woodrow Holt, of Cameron Route 1, went out to see what was disturbing them. A rooster under the house was "yelling bloody murder." The moon was shining and Mr. Holt picked up some article and threw it under the house to frighten whatever was after the rooster. When he did, out came a fox that turned on him. Mr. Holt grabbed an axe that was nearby and began swinging it, but the fox kept coming nearer. Finally, just as he had backed into a close place, the man hit the animal a lick which stunned it and he then cut its head off. The fox, evidently was rabid.

A number of persons in the county are reported to have been bitten by rabid dogs, and health authorities are urging citizens to have their dogs vaccinated without delay and to keep them confined at night for their protection against other dogs and foxes.
