Gen. McAuliffe Assumes Command **Kiwanans Hear** of Camp Mackall Airborne Center Forceful Talk on

Bastogne Defender of "Nuts to Surrender" Fame Succeeds Dalby

Maj. Gen. Anthony C. McAu-liffe, defender of Bastogne who made the world-famous reply "Nuts" to the German demand that he surrender the 101st Airborne Division, has assumed com-mand of the Airborne Center at Camp Mackall, succeeding Brig. Gen. Josiah T. Dalbey, who has been given an undisclosed assignment by the War Department.

General McAuliffe joined the famous 101st Airborne as Division Artillery Commander in June 1942, and trained the division at Fort Bragg where they spent most of their time before going to England in September 1943.

In England the division was further trained until June 1944, at which time General McAuliffe parachuted into Normandy at approximately D-5 hours. One of the first generals to land on the coast of France during the invasion of Normandy, he was one of a small group of men who assaulted the town of Poupeville, Farnce, one of the beach defenses. For this action he was awarded the Sil-ver Star, and later his entire group received the Presidential Unit Citation Normandy, he was one of a small
