Birth Announcement

Mr. and Mrs. W. D. Sabiston are receiving congratulations on the birth of a daughter, Cornelia Kinsey, on August 2 in the Moore County Hospital. They are going to call her Kinsey. That is a name with personality, and if the young lady lives up to her name and her charming mama she'll grow up with personality plus, no doubt.

Enthusiastic Rotary Workshop

One of the most enthusiastic and worthwhile meetings the Rotary Club has held in quite some time was last Thursday's get-together at McDonald's dining room. It was a work type and discussion meeting where all chairman made reports and very good reports they were, too, concerning what had been done in each of the committees during the past month. There was a full attendance of the present membership of thirty-seven. There are a number of prospective members also who will soon be welcomed into the fold as full fledged members.

Dr. R. L. Felton, the president wielded the gavel. Plans were discussed for carrying out a number of projects. Each of the following made a full report:

Earl McDonald, chairman Community Service; W. H. Currie, chairman, Youth Service; W. S. Golden, chairman, Program; John McCaskill, chairman, Rural-Urban; H. F. Seawell, Jr., chairman, Club Service; M. G. Boyette, chairman, Membership and Classification; John Currie, chairman, Attendance; Luke Marion, chairman, Rotary Information; H. Lee Thomas, chairman, Public Information.

Miss Ruth Hall of Roxboro will teach seventh grade and coach the high school girls' athletics. Miss Hall is a graduate of ECTC and has taught in the Person County Schools for the past four years.

Mr. Andrew Apponnaitis comes to the Carthage High School next season as coach from the Berry Hill School, Mecklenburg County. He was educated at Catawba College and was named for the little all-American football team.

"Doggone, Mrs. Spaniel, you've got a fortune there!"

"Yes, thank you. At today's prices they'll bring a tidy sum, I guess. Wonder how much, friend Foxhound?"

"I'd say a hundred bucks apiece, charming lady!"

"Flatterer! Why, when my grandpa was a pup, he brought only \$25. That was 20 years ago, of course, but he became a Champion!"

"My good woman, don't you realize how much prices have gone up since then? Look at hamburger, for instance . . ."

"Oh, Mister, how I'd love to look at hamburger!"

"Stop it—please! My point is that the price of nearly everything has gone way up in the last 20 years. Except electricity. And us dogs don't use electricity. That's unfair. I'm going to raise a howl about it!"

"But we do use electricity in lots of ways. It cooks our food and warms our baths and whisks our spare hairs off the furniture. The only reason my Mistress can help me tend and train these babies is because electricity saves her so much time and trouble every day!"

"Hm-m—guess you're right, gorgeous gal. . . And it'll please you to know that the average family gets twice as much electricity for its money today as it did 20 years ago!"

"Twenty years ago—when Grandpa was a pup—and hamburger was . . . how much did you say hamburger was?"

"I'll have to scratch up the exact figure for you. But now I must run along and pick up a scent. Electricity and I—forgive me—do a great deal of work for a cent. Yip, yip! Good day, Mrs. Spaniel."

Though this story's all fun, its facts are all true. Many things are scarce and expensive these days, but electricity is plentiful and cheap. One reason it's so cheap is because of your wider use—but another big reason is because America's business-managed electric companies constantly seek and find new ways to keep it so.
