PROPER BOLL WEEVIL CONTROL MEASURES can save farmers of the Cotton Belt up to \$100,000,000 this season, the National Cotton Council states. Regular checks on infestation, and application of calcium arsenate poisons when needed, are recommended procedure for meeting the boll weevil threat. County agricultural agents, vocational agriculture instructors and state entomologists can provide detailed information on control for this locality.

A. A. Short Being Shown At Carolina Theatre

On Friday and Saturday, July 11-12, at 8:15 P. M. and at a Saturday Matinee at 3:00 P. M., the Carolina Theatre, Southern Pines is showing a short of the RKO series "This Is America" entitled "I AM AN ALCOHOLIC". This story of a victim of alcoholism is a dramatic presentation of the work of the organization, Alcoholics Anonymous, and tells a tale full of human interest, it is said. It is scheduled for first place on the evening's program.

In 1844 the first telegram was sent over the wires from one city to another. The telegraph line was constructed by Samuel F. B. Morse with \$30,000 provided by Congress. The line went from Baltimore, Md., to Washington, D. C. and in 1866 the United States and England began sending messages to each other.

Hoke Pollock Elected To Board of Directors

R. F. Hoke Pollock, attorney, was elected to the board of directors of the Southern Pines Chamber of Commerce, at the board's semi-monthly meeting held Tuesday night.

Progress of the street lighting campaign was discussed, with approval of work already done and realization of much that remained to be done toward beautifying the shopping district with lights at night. It was decided to continue the campaign until both sides of the three main Broad Street blocks are 100 per cent lighted, or as nearly so as nearly so as possible.

John Ruggles, president, presided over the meeting.

The speed of moving vehicles may now be accurately determined by a new device used in cars parked off main roads and highways.

Three London scientists, F. C. Hyman, G. A. Campbell and H. F. West, have developed a remarkable insecticide soap containing DDT. They have tested this soap on all kinds of dogs and finds that it not only kills the vermin immediately, but prevents the dog from becoming reinfested even after being exposed to other lice-ridden dogs.

There are, at least 1,500 known varieties of mosquitoes and there

is hardly a place on earth where they are not found. They are common not only in the vast deserts, where they breed and develop in temporary pools of water, but also in the Arctic regions, where they breed in water from melting ice.

Although pyramids have always been thought of in connection with Egypt, there are actually more of them in Mexico, built by the Incas and the Aztecs.
