COUNTY FAIR

(Continued from Page 1)
said Chairman G. M. Cameron. "I believe that in your hands an agricultural fair would be a credit to the county."

A suggestion was made that some county land might be made available for the permanent fair-ground, if the project goes through.

MRS. McCAIN

(Continued from Page 1)
no present medical facilities; number two has some but need more, and number three is the already well-established hospital that aims to grow into a large medical center."

It appears that, in the plan, if those in the first category do not act fast and subscribe for all funds allotted, the second priority will inherit whatever is left; thus emphasizing the advantage of speed and readiness to apply at once.

"I believe we really are ready

to go now," Mrs. McCain added, "and I look forward to a wonderful advance in health standards in our state during the years ahead."

Mountain Camping Planned For Scouts

Plans for the 1947 Oconeechee Council Mountain camp August 3-10, limited this year to senior scouts, were announced this week by Bonner Sawyer, of Hillsboro, council camping chairman.

Registrations are limited and applications should be sent direct to the Oconeechee Council office, Raleigh, where they will be accepted in the order they are received. Boy Scouts applying should be in top physical condition on account of the strenuous activities of the camp, such as mountain climbing and exploration trips, conducted from the base camp at Smokemont, in Great Smoky Mountain park.

Field Executive L. W. Hewett of this district will be one of the camp assistants.

A and B Drivers Now Being Tested For New Licenses

A's and B's, attention!

From July 1st to December 31st is the time when those automobile drivers whose names begin with A or B are supposed to go to get their licenses renewed or to get new ones, under the recently enacted "Safe Driving" bill. Frye of Carthage, license examinations in this section are B. J. Frye of Carthage, license examiner here for several years, and Walter E. Yow of Aberdeen, Yow, who is new to the job, has recently completed a two weeks course given by the Highway Department at Chapel Hill for all would-be examiners.

Examinations will include the eye test, sign test, rule test and road test, but those wishing to familiarize themselves with these tests will have to wait until the local office receives the driving literature, now unavailable, but expected shortly.

The schedule of the examiners is as follows:

B. J. Frye will be in Carthage Mondays and Tuesdays from 9 to 5, and Saturday mornings, 9 to 12; at Sanford Wednesdays and Thursdays, and at Robbins Friday mornings.

Walter E. Yow will be in Aberdeen Mondays, Tuesdays and Wednesdays, from 9 to 5, and Saturday mornings, 9 to 12, and in Raeford Thursdays and Fridays. The Aberdeen location is not decided, but the Mid-South Motors building, scene of the former license office, is being used temporarily. Examiner Yow started work there Monday, and will be there until a larger office is found.

In discussing the examinations, Frye stated that, so far, the old drivers were having little trouble in passing. Questioned about the two physical tests, he said the eye test must show a 20-50 vision in order to pass. If a driver's eyes were less than this he could go to his doctor and if given a certificate saying that the vision had been corrected would be issued a license. All the tests are administered by the examiners.

SPEEDBOAT RACES

(Continued from Page 1)
oline also spewed out on the water.

Disqualified for this heat, the undaunted Lackey immediately went to work on his engine and got it in shape for the next.

Other hydroplane drivers were Sweeney Prosser of Charlotte and another Charlotte driver named Todd (first name unavailable), and winners were, in order: first heat, Prosser, Todd, Lackey; second heat, Todd, Prosser; third heat, Prosser, Todd, Lackey.

Another mishap occurred in the second race, for Class B runabouts, also run in three heats, in the first of which H. A. Abrams' boat capsized at the far end of the lake. A crash boat went out at once, pulled Abrams from the water and towed him and his boat to the dock, where he was able to re-work his motor in time to enter and win the last heat.

Hugh Bell, of Wilmington, was disqualified by motor trouble for this race, and W. T. Howard of Robbins was scratched. Participating drivers were the two brothers, H. A. and J. B. Adams, of Wilmington; J. D. Meeks, Jr., Sanford; L. T. Underwood, High Point; and a High Point team, Hayworth and Napier.

Winners were the same in both first and second heats—first place, J. B. Adams; second, Meeks, and third, Hayworth-Napier. In the third, winners were H. A. Abrams, J. D. Abrams, Hayworth-Napier.

Bob Brown, of Trinity, assisted in the management of the races. They were conducted under a loudspeaker system, and the drivers served as their own mechanics.

Highway patrolmen assisted in handling the hundreds of cars, which made quite a traffic problem as they streamed out on the highway at the close of the races. A large crowd remained to swim, dance and take rides in the two speedboats belonging to the resort, with many having refreshments at the concession stands and staying throughout the evening.

HAIL DAMAGE

(Continued from Page 1)
John Monroe, near Aberdeen; and R. B. and W. C. Donaldson, West End.

McGraw's claims indicated far worse damage done by the second storm, but Theo Berg, Aberdeen agent, reported that his list so far showed the first to have been worse, with the Roseland and Ashley Heights sections most severely hit. In one or two cases adjustment showed damage as high as 77 per cent, Berg said.

More than 30 claims were filed with Berg after the first storm, chiefly from the Roseland, Ash-

ley Heights and Aberdeen areas.

One farmer, W. A. Rosy, of near Aberdeen, reported damage done by the second storm just a few hours after the adjusters had been to his farm regarding his first claim.

More than 100 acres were severely hurt on just three farms, those of Joe Lucas, Rozelle Lucas and Land Kirk, and bad damage was found done also to the crops of R. P. Beasley, near Southern Pines, and R. E. Beasley, on Highway 1.

J. D. Arey, Jr., of Aberdeen, also reported scattered claims, and all agents consulted said the storms were typical of the traditional freak nature of summer hail, which will strike one farm and leave the next untouched, or destroy crops in just one corner of a field without hurting the rest.

Over many parts of the county the storm was evidenced only by severe wind, rain and electrical disturbance, while in some there were only showers. A number of trees were struck by lightning but The Pilot has found no report of damage to buildings.

The hail also did bad damage in sections of Lee, Harnett, Cumberland and other neighbor counties. A few farmers were fortunate enough to have already barned a good portion of their tobacco.

Reports on the hail damage are incomplete, it was emphasized by McGraw, as adjusters do not make their reports before the fifth day. That is the day on which the damage shows up most clearly.

SANDHILLS' FUTURE

(Continued from Page 1)

would be required to spend large sums abroad for several years, which could go to reducing the national debt. However he called this a good investment in peace and prosperity.

In conclusion, he declared, the present times can be compared with '27 and '28 except that operating costs are higher. Hotels here have not increased their rates in proportion, and, as a result, have built up good will for the Sandhills section which will pay dividends in years to
