

## Rural Telephone Problem Slated For Bureau Study

Farmers Will Meet At Carthage Tuesday

By E. H. Garrison, Jr. County Agent

The next regular meeting of the Moore County Farm Bureau will be held at the courthouse in Carthage Tuesday at 7:30 p. m. Please try to be here if you possibly can. You need the Farm Bureau as never before and the Farm Bureau needs you.

Industry, labor and professional groups have found it to their advantage to organize and maintain an active interest in matters that affect their welfare. Farmers are outnumbered, five to one; they must pool their strength through organization to make the most effective use of their effort.

When farmers work separately they constantly face problems which they cannot solve. They should make the Farm Bureau big enough and strong enough to do the job.

At the meeting we intend to take up the question of rural telephones, something we all need. Service in Moore county is very limited. We have lights in about every part of the county. At first no one thought this could be done but we got them. If we put forth a real effort, it may be we can get telephones just as well. This wire, I understand, can be put on light poles that are already up, making these serve a double purpose. Be sure to come if you can.

## TENNIS SATURDAY

All those tennis fans who came out to the county tournament will have a new treat tomorrow (Saturday) night, when a team from the Raleigh club will meet a Southern Pines team under the lights on the local courts at 8 o'clock.

This is the match which was all set two weeks ago, but was rained out—so keep your fingers crossed.

Since then the local players have seen the Raleighites in action in the Eastern Carolina tournament, and they say, "Boy they are GOOD!"

Four singles and two doubles matches will be played. Tentative local lineup is Montessanti, Brown, Choate and Barefield in the singles, with Brown and Montessanti, Clark and Choate playing doubles.
