Sweet potato yields in North Carolina will average about 90 bushels per acre this year. This is much lower than last year's yield, largely because of dry weather conditions.

SOUTHERN PINES

All But Impossible to Believe!

Standard equipment, accessories and trim illustrated are subject to change without notice.

It is very difficult to believe—but, each month, there are literally thousands of people who pay as much for their motor cars as it would cost them to buy Cadillacs . . . and, yet, they don't get Cadillacs.

As we said, this is very hard to believe—but the reasons for it make it more or less understandable.

In the first place, a great many people simply don't know what a Cadillac costs. They don't understand that the lowest-priced Cadillac actually costs less than certain models produced by numerous other manufacturers.

They only know that Cadillac is the world's most renowned motor car—and they assume, from this, that it must also be *exclusively priced.*

Too, some people get discouraged because they can't walk in and order a Cadillac and get immediate delivery—as they can with so many other makes of cars.

This, too, is largely due to a failure to get all the facts and think them through to the inevitable conclusion.

You have to wait a while for a Cadillac because so many people *want one—and want it so badly that they are*

willing to wait for it. And that, in turn, is because Cadillac is recognized *everywhere* as the Standard of the World.

So if you want a Cadillac—and research indicates that a vast percentage of motorists do—come in and talk with us about it.

We'll give you the facts concerning comparative costs. And we will also talk frankly with you about delivery dates, so you may know about what to anticipate.

You really owe it to yourself to do this. For, surely, you don't want to pay the *price* of a Cadillac—and *still not get one!*

* * *

If we already *have* your order for a Cadillac—stand firm in your conviction—for each day brings you closer to your heart's desire.

It is true, of course, that you can get quicker delivery on other makes of cars. But, in all the world, there is no other car like Cadillac.

So be patient—and you will have your reward!
