"ARcie" says:
We can't engineer your safety
But somewhere we have read
A horn won't do you any good
If that's a blind crossing ahead.

Blue & White Splits Double Bill With Rockingham

Southern Pines' Blue and White basketball teams journeyed over to Rockingham last Tuesday night and the best they could get for the trip was a split, the Southern Pines girls winning and the Rockingham boys copping their game.

Betty Jane Worsham and Sieger Herr topped the Southern Pines scoring, with Carolyn Kirk taking the honors for Rockingham.

In the boys' game, Townshend hit the nets for 14 points to be matched by Dyson of Rockingham.

Line-ups and scoring for Southern Pines: girls—Worsham 15, Guin 9, Dana 4, Herr 12, Newton 8, Bowden 2, Woodell 2, Moore, Page, Kirk, Cameron, Stuart, Doser, Pearson, Bowles, Faircloth, total 50.

Rockingham—Carolyn Kirk 21, Peneger 3, Allen 4, Covington 4, Jenkins 3, Schell 2, Warner 2, O'Brien 7, Cook 2, Smith, McRae, Totals 37.

Southern Pines boys—Page 3, Woodruff 9, Newton 5, Townshend 14, Matthews 4, Bailey 1, Choate, Ruggles, Collins, Huntley, total 36.

Rockingham—McLean 10, Dyson 14, Blane 7, O'Brien 8, Ellerbe 9, Matthews, Collins, Covington, Warrick, Goodwin, Johnson 2, total 50.

Fred H. Weaver Awarded Carnegie Travel Fellowship

Dean of Students Fred H. Weaver of the University of North Carolina has been awarded a Carnegie Corporation traveling fellowship to visit universities and colleges throughout the country for the purpose of studying undergraduate student life, it has been announced by UNC Chancellor Robert B. House.

Dean Weaver, a native of Aberdeen and a graduate of Aberdeen High school, is the son of Mrs. Frederick H. Weaver, who now lives in Southern Pines. His sister, Mrs. J. W. Causey, also lives here.

The fellowship, a part of the Carnegie administrative personnel program, is awarded to young administrators to give them opportunities for travel which have generally been available only to teaching staffs of universities. In the last 10 years only 25 such fellowships have been awarded.

Dean Weaver will leave early in February on the first phase of his tour which will cover a 12 or 15-week period. He will travel for a month at a time, to three different sectors of the country,

including the East and South, the Middle West, and the West Coast, returning to Chapel Hill between trips.

A graduate of the University class of 1937, Dean Weaver became assistant dean of men in 1938 and served in that capacity until 1941. He then served as American vice-consul in Rio de Janeiro one year and in 1942 enlisted in the Navy. He received his commission as a Navy pilot in 1943 and spent one year with the Naval Ferry Command.

Dean Weaver returned to Chapel Hill in 1948 and was named dean of students. In 1949 he was granted a year's leave of absence for study in the history

of American civilization at Harvard. Last November 10, he was married to Miss Frances Louise Angas at Princeton, N. J., and the couple have been living at Chapel Hill.

It's New... It's Exciting... It's Sensational!

Aero Willys

6 Ft. Wide - Only 5 Ft. High
New 90 H.P. 6-Cylinder Engine
Up to 35 Miles Per Gallon
Loafs at 60 - Cruises at 75 - with Power To Spare
61"-Wide Seating

In one giant stride, Willys sets a new pattern for the future with a car which embodies advanced features of Aero design. With its advent, many other cars become obsolete. For no other car possesses its combination of **Economy**; **air-borne Ride**; **low-center-of-gravity Safety**; **sheer dollar Value** and **it's Beautiful!**

It's Low and Wide, It's Big Inside and It's Beautiful. Today, Willys brings you this revolutionary car, a brilliant blend of aero and auto engineering, ready to thrill you with a new experience in motoring.

AERO-FRAME CONSTRUCTION, following principles of aero-design, welds the body and chassis members into one extremely rigid unit. Streamlined from its plane-wing hood to the rear air-fins, the Aero Willys, powered by a new 6-cylinder Hurricane Engine, gives breath-taking performance and up to 35 miles a gallon with overdrive.

PREMIUM GAS NOT REQUIRED because of F-Head engine design. This new engine, with 7.6 compression, produces 560 horsepower per cubic inch of displacement, surpassing even the engines in America's most costly cars.

HELICOPTER VISIBILITY, with panoramic vision all around, results from wide glass areas. All 4 fenders are visible from the driver's seat.

SMOOTH, QUIET AIR-BORNE RIDE. Road shocks, noise and vibration are smothered by new springing and rubber "pillows" at strategic points. Center-fill gas tank at rear... pull-out dash drawer... 24 cu. ft. luggage space—these are but a few of the features you will notice when you see the surprise car of the year—and it's Beautiful!

MADE BY THE MAKERS OF THE WORLD-FAMOUS Jeep
with billions of miles of tough service
