Vernon Cardy Horses Win Nine Firsts In Cote De Liesse Show At Montreal

Two-Day Event Held For Benefit Of SPCA

Canada's annual Cote de Liesse horse show, held recently near Montreal for the benefit of the Society for the Prevention of Cruelty to Animals, saw horses of the Vernon G. Cardy string win nine firsts.

The Canadian hotel tycoon and Mrs. Cardy, with their famous string of show horses and hunters, spend the winters at their home, Vernon Valley Farm, near Southern Pines. Headquarters for them in summer is Mount Vernon Farm at Val David, in the Laurentian mountains.

The Cote de Liesse show was run off on two perfect days, with 38 events held in a picturesque

setting before large and enthusiastic crowds. Besides their nine firsts, Cardy horses won five seconds, six third places and two fourths.

Most of them were to appear again this week at the Chalet Cochand show at Ste.-Marguerite, P. Q., then in Paddy Clark's Ste.-Agathe show the weekend of August 16.

Frank Hawkins of New Jersey directed the Cote de Liesse show. A highlight was the Cardy winning hunt team of three wearing colors of the Eglington Hunt.

Firsts were won by Cardy horses and riders as follows:

Green Hunters—Banbury, Jim Pogue up; Working Hunters, Times Square, Helen Ferguson; Knock Down and Out, Ksar d'Esprit, Jim Pogue; Lightweight Hunters, Gold Lode, Jim Pogue; Middleweight Hunters, Maple Leaf, Jim Pogue; Heavyweight Hunters, Times Square, Helen Ferguson; Jumping Stake, Atomic, Jim Pogue; Open Hunters, Gold Lode, Helen Ferguson; Hunt Team of Three, Gold Lode, Mrs. F. H. Dillingham; Banbury, Jim Pogue, and Time Square, Helen Ferguson.

Second place wins: Middleweight Hunters, Banbury, Jim Pogue; Open Working Hunter, Ksar d'Esprit, Jim Pogue; Jumping Stake, Ksar d'Esprit, Jim Pogue; Open Hunters, Banbury, Jim Pogue; Seury Stake, Ksar d'Esprit, Jim Pogue.

The European corn borer—now known to occur in 37 states—caused losses to field corn estimated at 35,800,000 bushels in 1951. Losses were valued at nearly \$57,500,000.

An average income of 68 1-2 cents per bird was received by demonstration poultry flock owners in North Carolina during May.

Meat production under Federal inspection for the week ended July 12 was estimated at 277 million pounds.

YDC Group Makes Convention Plans In Meeting Here

Members of the state YDC committee for planning the annual convention met at the Belvedere hotel Sunday and selected a place and date.

It was decided to accept Greensboro's invitation, convening there Thursday, Friday and Saturday, September 4, 5 and 6.

Vaughn Winborne of Raleigh served as chairman of the committee, by appointment of W. W. Staton, of Sanford, president. Meeting with him here were H. Clifton Blue, of Aberdeen; Pete Jones, Scotland county, and Horace Hornegay, Greensboro, of the committee, also Arthur York of High Point, state YDC director of organization.

Rod And Gun Club Meeting Tuesday

The Moore County Rod and Gun club will meet Tuesday evening in the basement of the Belvedere hotel.

The meeting will begin at 8 o'clock sharp, according to the president, Ray Backlund, who said that there will be a half-hour business session before the program at 8:30. For the program, the group will adjourn elsewhere to see two films and hear a talk. One of the films will be on pheasant hunting, the other on conservation. Gene McDonald will speak on skeet and wing shooting.

The club recently received its charter as an affiliate of the National Rifle association. A range is being built on the Pinebluff road, off the Aberdeen-Pinehurst road. A number of shooting events are planned for later in the year. The club anticipates also the initiation of a junior program.

Cameron Cannery Will Be Open

The Cameron Community cannery will be open Tuesday and Thursday of next week and also of the following week, it was announced by George M. Thomas, agriculture teacher.

The cannery will be open on each of these four days starting at 8 a. m., and 1 p. m. will be the latest any product can be accepted for canning.

THEATRES Carolina

Continuing through Friday (tonight) and Saturday at 8:15, with a matinee Saturday at 3, and then on through Sunday-Wednesday, August 3-6, with matinees Sunday and Tuesday, at the Carolina theatre is that great spectacle, "The Greatest Show On Earth." Moviegoers by and large are going to agree that so far as "The Greatest Show On Earth" is concerned, "the title says it." For truthfully, as pure entertainment for everybody everywhere, as a picture calculated to please all tastes, this Cecil De Mille epic of the big top is away up there at the top. It has the works—size, thrills, magnificent Technicolor, loads of splash, the vibrancy and excitement of the circus and a great cast, including Betty Hutton, Jimmy Stewart, Cornel Wilde, Dorothy Lamour, Charlton Heston, plus Emmett Kelly, the famous Ringling Brothers clown, and a seemingly endless aggregation of circus performers in deeds of daring and skill.

Made with the cooperation of the Ringling Brothers - Barnum and Bailey circus the picture has a virtually limitless potential for entertaining folks of all ages and tastes. Present in copious quantities are the color and spectacle afforded by the "Big Top," into which DeMille has incorporated a fast-paced screen play and many of the elements of a lush film musical.

Running time of this picture is 151 minutes and will be preceded only by the news. Don't be late.

Starting Thursday night, August 7 is "Red Mountain," in Technicolor, with Allan Ladd, Elizabeth Scott and Arthur Kennedy.

A recent check of seven tobacco sucker control demonstrations in Beaufort County showed that at least 95 per cent of the suckers had been killed.

Farmer's Question Corner

PREPARED BY American Foundation For Animal Health

WHAT ABOUT RABIES?

Q: How is rabies spread?
A: It is spread by the bite of an animal that has the disease. It can also be spread if saliva from a rabies victim comes in contact with open scratches or with surface of the eye. Rabid dogs are the most common sources of infection.

Q: Is this disease dangerous to both human beings and animals?
A: Yes. It can kill people, as well as any type of animal. Wolves, foxes, coyotes, squirrels and skunks are spreaders of the disease in some areas.

Q: Is rabies fatal?
A: Yes, it is one of the most dreaded of all diseases. However, it can generally be prevented by protective vaccination.

Q: How successful is vaccination?
A: Very dependable. Authorities now recommend this control program: All dogs in an area should be vaccinated. Stray dogs should be impounded. Any dogs being shipped from one area to another should be required to have a rabies vaccination certificate. This plan has brought rabies under effective control in many communities.

Q: How does one recognize rabies?
A: Suspect rabies when dogs or livestock behave abnormally. Gentle animals become nervous and irritable. Dogs may have dumb rabies, in which their jaws are paralyzed and their mouths hang open; or the furious type where they want to bite anything within reach.

Q: If rabies is suspected, what should one do?
A: Contact a veterinarian immediately. Confine any suspect dog or farm animal. Do not kill the animal. If a person is bitten, call a physician immediately.
