

The massive new grille of the 1953 Ford features a center spinner characteristic of Ford design and a low, road-hugging look which advances the trend in car styling Ford first introduced five years ago. Oblong parking lights are set low to enable the streamlined center bar to wrap around the front fenders and add to the lower, wider appearance.

1953 Ford Unveiled Today, Marking 50th Anniversary of Ford Motor Co.

The 1953 Ford will go on display at Jackson Motors, Southern Pines, today, (Friday) as in other showrooms of the 6,400 Ford dealerships throughout the country.

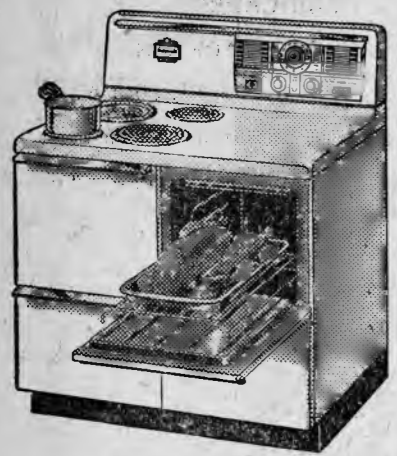

The Jackson Motors showroom has been renovated in preparation for the showing, and E. Nolley Jackson, proprietor, said everyone is invited to come and see this long-awaited new car. It is being presented at no increase in prices anywhere along the line. On view will be a crestline victoria in flamingo red, with ivory white top, also a four-door sedan in woodsmoke grey. These are two of a line of new colors developed for the 1953 models.

Other models are on order by the local concern and are expected to be in by today or within a short time.

The unveiling of the 1953 Fords marks the 50th anniversary year of the Ford Motor company, a milestone in the life of a company which has meant much in America's progress. L. D. Cruse, vice president of the Ford Motor company and general manager of Ford Division, said, "The 1953 Ford is a worthy successor to all the millions of cars this company has built since the late Henry Ford organized it in June 1903.
