Better Parking

To the Mayor and Town Commissioners of Vass goes a bouquet for the excellent way in which they are solving the parking problem on the post office block.

On the railroad side of the street, a row of poles has been set up to guard against driving into the cut, and dirt has been hauled in to level the area, making practically all the space between the two overhead railroad bridges available for parking. Hardsurfacing of this area is included in the plan.

The opposite side of the street has been marked off for southbound traffic to park at an angle, replacing the "who can, who can't" method of heading in straight to the sidewalk from all directions, as heretofore.

The town board consists of Mayor A. G. Edwards, Jr., and Commissioners R. B. Gunn, Jack Morgan, D. H. McGill, Leon Keith and Harold Williams.

Circus Draws Crowd

The Ring Brothers circus, which showed in Vass Saturday afternoon and night, under auspices of the Vass Lions club, drew almost a capacity crowd for the night

performance. The show was clean, and the work of the trapeze and wire artists would do credit to a much larger show, was the comment.

TT Dynaflow* does the trick!

WE have just the place for you. If such is your desire.

It's at the wheel of a 1953 Buick with Twin-Turbine Dynaflow.

And we suggest you hold on to your hat and your heart when the action starts—for here's what happens:

You press the pedal and, from a standing start, you're up to a legal 30 mph before you have time to breathe but twice.

Or, you're in the thick of traffic—moving smoothly, easily, quietly. Then, when it's safe to do so, you move instantly into the clear with the greatest of ease—in one progressive build-up of velvet acceleration—

without a single gear shifted or a clutch pedal pushed.

That, sir, is the big thrill command you get in any 1953 Buick SPECIAL, SUPER or ROADMASTER with new Twin-Turbine Dynaflow.

For this fully automatic drive now has two turbines where one did the trick before. Two turbines for instant getaway response—with whisper quiet—and with infinite smoothness through all ranges.

Of course, a lot of able power goes with this smooth, quick getaway—the highest horsepowers and compression ratios. Series for Series, in all Buick history.

And so does big room. And the

supreme comfort of the Buick Million Dollar Ride. And the superb handling ease of finely balanced weight. Even Power Steering* is at hand to make parking and turning still easier.
