**START OF A BIG PILE**—This tiny pile of coal, first carload to be delivered at the site of Carolina Power & Light Company's big Wilmington plant, will grow and grow until it covers acres of ground to a depth of 40 or 50 feet. Coal is stored in quantity to avoid power interruptions due to temporary halts in fuel delivery. When operating at full speed, the plant will consume about 29 train carloads of coal per day—enough to heat the average home for more than 250 years.

### Clyde Council's Nephew Killed In Plane Crash

Impact of the plane with the ground crushed the engine back into the cockpit, it was reported, and the young man's body had to be cut from the wreckage. Wreckage of the plane, which was registered in the name of Frances Broadfield of Rocky Mount, was strewn over a 30-foot area.

Mr. McIntosh, an amateur pilot, had been taking flying lessons about one year.

He was a graduate of Presbyterian College at Clinton, S. C., and had just completed his third year at Union Theological Seminary, Richmond, Va. He would have graduated next year, prepared to enter the Presbyterian ministry.

He was widely connected throughout Moore county, where the McIntosh family dates back to Scottish pioneer days. His father's childhood was spent in the Horse-shoe section, and a number of relatives are still living there.

Mr. Council, who is advertising manager of The Pilot, and Mrs. Council attended funeral services for McIntosh at the Highlands Presbyterian Church, Fayetteville, at 5 p. m. Tuesday. Burial was in Lafayette Memorial Park, Fayetteville.

The young man is survived by his parents, Mr. and Mrs. H. L. McIntosh Sr., of Fayetteville; a sister, Miss Elizabeth McIntosh of New Bern; and a brother, H. L. McIntosh, Jr., of Fayetteville.
