**AIRMEN SOFTBALLERS**, back in the running for championship of the Adult Softball League with a 10-1 victory over the Church of Wide Fellowship Monday night, line up for a picture after the game. Pictured, front row, left to right, are Warren Whaley, medic attached to the team, Jimmy Ratledge, rightfielder, Joe Valentine, centerfielder, William D. McIntire,

catcher, Steve Caldwell, batboy, Wilbur Hosman, shortstop, and Joe Storey, third base. Back row, same order, Sidney McCall, assistant manager, Bryant Parr, rightfielder, Joe Riddle, leftfielder, James Kurley, second base, George Norris, pitcher, Earl Brown, second base, and Carl Lavel, first base. (USAF Photo)

**CHURCH OF WIDE FELLOWSHIP** softball team will try to get back in the winning column tonight when they meet the Air Ground School Airmen in the deciding game of a two-of-three series for the championship of the Adult Softball League. Pictured, front row, left to right, are Joe Garzik, rightfielder, Tom Cunningham, first base, Irie Leonard, third base,

Gene (Casey) Blackwelder, manager, Sgt. R. E. Dillingham, catcher, and Clyde Smith, second base. Back row, same order, Andy Page, leftfielder, David Page, centerfielder, Tommy Grey, second base, Jimmy Hobbs, utility, Harry Chatfield, pitcher, and Davis Worsham, shortstop. (USAF Photo)

## USAFAGOS Airmen Defeat Church Of Wide Fellowship In Second Game Of Playoffs; Final Game Set Tonight

The Church of Wide Fellowship softball team, upset winners over the USAFAGOS Airmen in the initial game of the Shaughnessy playoffs of the Adult Softball League last week, failed to find the hitting secret Monday night and lost 10-1.

James Norris, ace pitcher for the Airmen, was clearly the outstanding man on the field as he limited the opponents to two hits, one of them a double to centerfield by Irie Leonard in the bottom of the fourth inning which scored Joe Garzik for the lone run.

The Airmen and the church team play tonight (Thursday) at Memorial field for the championship. Game time is 7:30 and officials have suggested fans get to the field early since seating for the rubber game of the series will probably be at a premium.

Coming into the fourth inning Monday night the game was scoreless. But in that inning the Airmen exploded for five runs, all of them coming after two men were out.

Here's the way the inning went: Carl Lavel walked; Joe Riddle popped to Irie Leonard at third; Wilbur Hosman sacrificed Lavel to second; Joe Valentine waited out several pitches and finally connected for what should have been an easy infield out, but a wild throw first moved him to second and Lavel to third.

Earl Brown, on an even count of one ball and one strike, lashed out a long double to right field, scoring Lavel and Valentine.

Norris then hit through first base, just barely fair, scoring Brown. On a bad throw into third to try and trap Brown, Norris scored.

Joe Storey stretched what should have been a single into a double, took third on a wild pitch and came home on Jim Kurley's double to left field. Bill McIntire fled to first base to end the in-

ning, with five runs scored.

The Church of Wide Fellowship scored its one run in the same inning.

In the top of the fifth the Airmen scored again on a homerun by Riddle to right center field, with none aboard.

In the sixth Story singled, followed by a sharp grounder to second base hit by Kurley that was difficult to field. All hands were safe.

McIntire hit through the second base slot, scoring Story and then a combination of bad luck and wildness, which haunted the Church team all night, took over again. On the throw in to third base the ball took a bad hop and bounced over Leonard's head, allowing Kurley to score.

Lavel fled to second and Riddle singled to center field to continue the hitting spree. A long fly by Hosman, coupled with an error, allowed both McIntire and Riddle to score.

**Church Wins First**

In the game last week the Church of Wide Fellowship, behind the excellent pitching of Harry Chatfield and sound base-hitting by almost every member of the team, had piled up a lead going into the final inning. The Airmen tied the score at 8-8 in the top of the seventh.

In the bottom of the inning Tom Cunningham, first baseman for the Church team, walked to start the inning, and scored on a fielder's choice by pinch-hitter Jimmy Hobbs. Cunningham beat the throw to the plate to come in with the winning run.

**Trophies**

Following the game tonight, a championship trophy, donated by Buster's Sport Shop, will be presented.

The runner-up will receive a trophy made available by the Recreation Commission.

## Five Man Board Named To Secure Proper Fire Unit

A five-man committee, representing all nine townships in the county, has been appointed by the Board of County Commissioners to investigate the proper type fire equipment to purchase with the \$10,000 allocation recently made available for rural fire protection.

Members of the committee are Ed Shields, Ritters and Deep River Townships; Clyde Auman, Mineral Springs and Sandhill; Harold Fowler, McNeill and Greenwood; Hugh Jackson, Carthage; and Ralph Steed, Sheffield and Bensalem.

In effect, the committee members are representing the various townships on a similar basis to the county commissioners.

In making the appointments, Chairman Gordon Cameron said it was the commissioners' desire that the committee come up with the type equipment that could be utilized for widest protection.

The commissioners recognized that a problem would be created when the final decision is made as to the exact location of any unit, but have indicated a willingness to go along with the rural fire protection program by promising, if the money became available, to buy more fire equipment in the future.

Though the commissioners took no official action, it is expected that a committee of mayors or other town officials from the various parts of the county would be appointed to determine the proper location for the new fire unit.

That, at any rate, was what (Continued on Page 8)

## Negro Is 11th Road Fatality

A 59-year-old Negro, Golden Cuffey, became Moore County's 11th highway fatality of the year when his car was struck by a truck seven miles east of Carthage Sunday afternoon.

Evidence showed that Cuffey, who was apparently killed instantly, was in the wrong lane when the tractor part of a hugh tractor-trailer truck struck his car and spun it completely around in the road.

According to investigating State Highway Patrolmen, Cuffey, who lived in West End but worked for Carolina Power & Light Company in Kinston, was headed toward Sanford when the accident occurred on a straight stretch of Highway 15-501 near the Lee

County line.

Two men in the truck were injured and taken to Lee County Hospital, according to the officers.

After the collision, the tractor went down an embankment, came back up on the road and turned over about 100 yards away in a field.

Coroner Ralph Steed was out of town at the time of the accident. R. G. Fry, acting coroner, said he was withholding his investigation for a few days until he could get more reports from several witnesses.

Investigating the accident were Cpl. Jim McColman and Patrolman H. A. Hight of Moore County, and Patrolmen Brown and Cummings from Lee County.

## BLUE HEADING FOR CHICAGO

### Harriman, Chandler Making Strong Bid For Support Of N. C. Delegation

H. Clifton Blue of Aberdeen, regular delegate to the Democratic National Convention opening in Chicago Monday, will leave Saturday morning to catch the special convention train in Charlotte.

Mayor Voit Gilmore of Southern Pines, an alternate delegate, is planning to fly to Chicago with Governor Hodges' party Friday morning; one other alternate delegate from Moore County, W. P. Saunders, is not planning to make the trip.

Rep. Blue said this morning that he has been receiving "quite

## Librarian's Job Vacant At AGOS

Officials at the US Air Force Air-Ground Operation School here have announced a job opening for a librarian at the school.

Applicants for the job, which pays \$4,520 per year on a Civil Service pay scale, must be trained in library science and show past experience in actual library work. They must also take a regular Civil Service examination for the post.

Officials at the school said applicants could call there for further information but must make the actual application at the civilian personnel office at Pope Air Force Base.

## Pinehurst Police Conducting Search For Night Prowler

Pinehurst police are continuing an investigation today of a mysterious person who broke into the home of Mr. and Mrs. Donald C. Miller in Pinehurst early Monday morning.

Miss Faye McKenzie, 17, daughter of Mr. and Mrs. W. I. McKenzie of Pinehurst, told officers she was awakened about 5 o'clock Monday morning to see a man advancing toward her with something in his hand.

Police theorized the intruder was carrying a piece of clothing, which had been cut the preceding day and which was missing.

In the house with Miss McKenzie, who was spending the night with Mrs. Miller's mother while the Millers were away, were two children.

Miss McKenzie's screams apparently frightened the intruder away. Her screams awoke Mrs. Peter Tufts who lives nearby and several other neighbors.

Police had bloodhounds on the trail shortly after but could follow a scent only to the nearby Cloverleaf Apartments. Police said the intruder probably entered a car there.

It was reported that whoever entered the house had cut the telephone wires, apparently before entering.

Police picked up fingerprints about the house and have sent them to the FBI for possible identification.

A number of break-ins have been reported in Pinehurst during the past month, but always of houses where the occupants were away.

Miss McKenzie told police she was too frightened and everything happened too quick for her to get any identification of the person.

## Decision On Privilege Licenses Deferred For More Study By Council

### To Await Complete Study Being Made By State Groups

Town Council has decided to postpone any action on appointing a special committee to study privilege licenses in the town until studies currently being made by the League of Municipalities and the Institute of Government are made available.

Council took the "wait and see" attitude at its regular monthly meeting at the library Tuesday night.

Previously, Mayor Gilmore had been requested by Council to appoint a three-man committee to study the problem of establishing a privilege license set-up for the town following the Manager's annual budget message.

In that message, Manager Tom Cunningham had pointed out the inadequacy of the set-up as it

currently exists.

Tuesday night Council was informed by Cunningham that the two state-wide groups are studying the whole privilege license set-up throughout the state and that there will probably be many changes made after recommendations are in. Council decided to await the study and, if feasible, use it as a basis for establishing a privilege license set-up here.

In other action the Council agreed to give the state 80 feet of property from Bennett Street to the bridge on Pennsylvania Ave. at the new thruway. The state has indicated it will curb and gutter the property and widen the street in order to give a better approach to the thruway.

Council was told by Mayor Gilmore that Pennsylvania Ave. would probably develop as a principal "lifeline" to the thruway and that something eventually would have to be done to improve it.

The new Town Charter, which has been brought up to date and revised by a committee headed by J. Vance Rowe, Jr., was discussed. Council decided to allot 30 minutes at both the September and November meetings for public hearings on the new charter.

The Pilot will, in the meantime, publish it in weekly installments so that citizens will have ample time to study it.

Council also voted to alleviate a parking problem that was caused when the new Colonial Store opened last week.

Officials at the ABC store had suggested that certain parking areas in front of the store be changed from two-hour parking to 15-minute parking.

Council voted to designate the three stalls directly in front of the store as 15-minute areas; others on the street will remain the same so as not to interfere with business of other establishments.

At Mayor Gilmore's suggestion, the Council adopted a motion of thanks to Major Erskine B. Crew and C. L. Dutton for their work with youngsters in the town.

Major Crew, who has been the Marine Corps attaché at the Air Ground School, has been transferred to Hawaii. Council expressed their thanks to him for contributing much of his time to organizing and working with young boys.

Dutton, who has been the highly successful coach of the Little League team here, was also given a public vote of thanks.

## Haynie Cartoons Making Bow Today On Editorial Page

Regular publication of cartoons by Hugh Haynie, bright young editorial cartoonist of the Greensboro Daily News, begins today in The Pilot.

Haynie, who has won wide acclaim for his incisive and "on top of the news" cartoons from all sections of the country, is a native Southerner, born in Reedville, Virginia, a small fishing village on the Chesapeake Bay, 29 years ago.

He attended public schools in Virginia and took his degree from the College of William and Mary.

After working on various college publications he was employed by the Richmond Times-Dispatch in 1950, but was recalled into the Coast Guard in 1951. He had previously served with the Coast Guard in the Pacific area.

He returned to the Times-Dispatch for a few months in 1952 and joined the Daily News as a full time editorial cartoonist in 1953. He left the Daily News in 1955 to work for the Atlanta Journal, returning to Greensboro this year.

Haynie's cartoons are being syndicated to a number of papers in the state at present. His work is highly prized, not only for its impact on current events, but for the excellent art work.

The Pilot is happy to provide readers with Haynie's work, which will appear regularly each week.

**OBSERVATION TOWER** for the Moore County Ground Observer Corps is still unfinished. The tower, located on the Boyd Estate, will play a vital part in "Operation Skywatch" for eastern defense of the country in the event of an enemy attack, according to Dave Drexel, county supervisor of the GOC. Volunteers who would like to help complete the construction should contact Fred Hall, Jr., chief construction engineer, Harry Chatfield, chief observer, or Col. George Garde, post supervisor. When completed the tower will have a closed-in room and adequate facilities for complete hookup with Ground Observer Corps posts in other sections of the area. (Pilot photo)
