**OLDSMOBILE**

DESIGNED FOR SOUTHERN LIVING

"Come on try it... there's nothing like a J2 Rocket!"

**Olds Owner:** Let me show you. This J-2 Rocket\* is like two engines under the hood.

**Friend:** Neat trick—how does it work?

**Olds Owner:** It's a new progressive carburetor system. Gives you more economy . . . or extra power for safety. Take your choice.

**Friend:** Economy sounds swell . . . but with a big car like this . . . ?

**Olds Owner:** You bet! They engineered the J-2 Rocket Engine for our kind of driving . . . top efficiency at normal driving speeds because it's fueled by one carburetor.

**Friend:** How about that extra power?

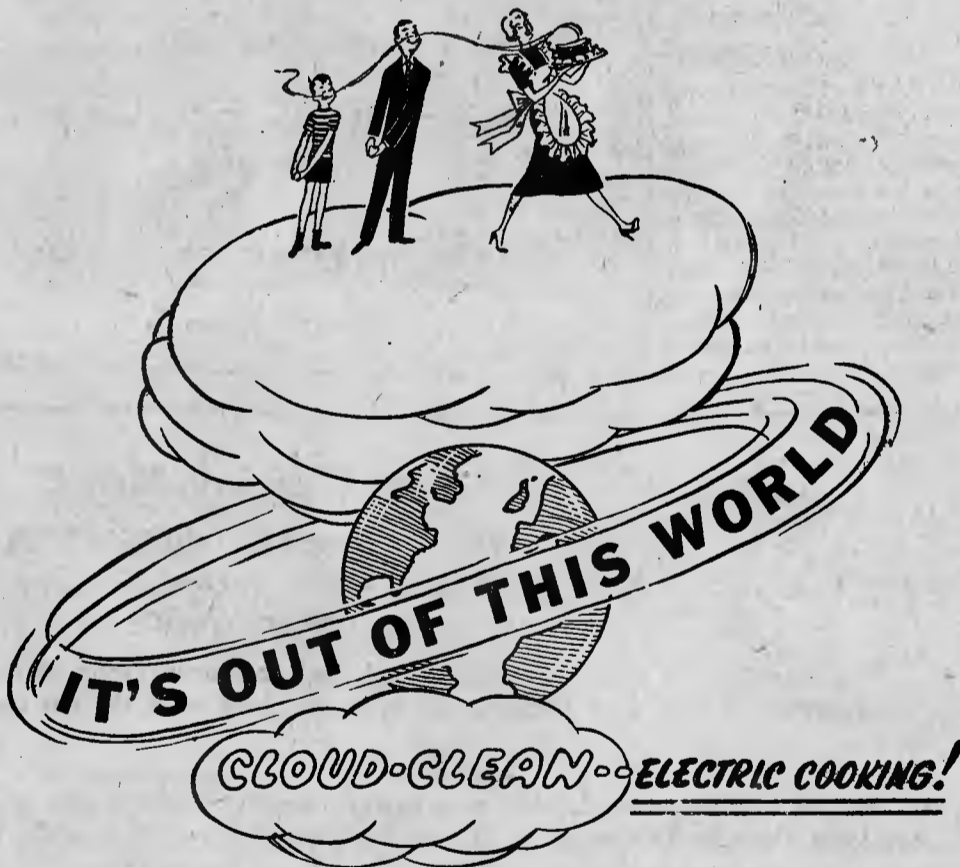

**Olds Owner:** Give it 3/4 throttle and two extra carburetors cut in. It's mighty reassuring to know you've got that extra power in the bank.

**Friend:** I get it. Economy when you want it—power when you need it.

**Olds Owner:** Correct. But talking about it won't give you the whole story. This one you've got to drive. Climb in—let's go.

**PERSONAL NOTE:** Your Olds dealer would like you to try J-2, too! It's available now on all models, including the Golden Rocket 88, lowest-priced Rocket Engine car. Be his guest for America's newest driving experience.  
\*Optional at extra cost.
