

LOCAL GIRLS

(Continued from page 1) will begin Friday night, February 14.

Final home games of the season, with Pinehurst, will be played by Southern Pines here Friday night. The Southern Pines varsity girls will not participate, but the Junior Varsity will meet the visiting team.

Aberdeen Games

In tripping Aberdeen 51-30, Patti Britt topped the Southern Pines girls' scoring with 26 points. Louise McDonald had 17 and Nancy Traylor 8.

Dolores Maready, Janice Holliday and Katherine Harriss held the Aberdeen Devilettes in check. Reserves who played were Joan Parker and Mary Ann Cox.

For Aberdeen, Glenda Caviness led with 19 points, Hazel Wood scored 6 and Voss 3. Creel, Van Boskerck and Funderburk were the regular guards. Playing as reserves were Betty Caviness, Leach, Monroe and Luck.

In the boys game (79-47, for Aberdeen), Larry Littleton of the Red Devils gave the Blue Knights the most trouble, sinking 24 points. John Caldwell, with 15, and Marvin Lewis, with 13, helped divide the scoring. Sonny Smith had 10 and Veasey 6. Going in as subs, Green had two points, Wilson 7 and Poleston 2.

Steve Smith and Everett Cushman divided the scoring honors for the Blue Knights, with 18 each. Jesse Williford's 4 and Robert Woodruff's 2 accounted for all the other local points by regulars. Jimmy Caldwell, as a sub, was credited with 4 and the other reserves went scoreless: Jim Tollison, Wayne Davenport, Charles Weatherspoon and Jimmy Carter.

Vass-Lakeview Games

Patti Britt's foul shot and field goal in an overtime period gave the contest to the Southern Pines girls, 61-60, against Vass-Lakeview Tuesday night. The regular game ended 58-58 and had first been tied, 33-33, in the first half.

Patti Britt's 35 points held scoring honors for the night. Louise McDonald's 14 and Nancy Traylor's 12 helped pile up the winning total. With Dolores Maready and Janice Holliday, Joan Parker was back in at guard. Reserves who played were Gayle Taff and Katherine Harriss.

Ella Blue, with 32, and Thomas, with 25, were the big scorers for Vass-Lakeview. Haynes had 3, Keith, Blue and Williams were the guards. Cameron went in as a reserve guard.

Continuing in a slump and playing what was probably their worst game of the season, the Blue Knights lost to Vass-Lakeview 75-51. Cushman's 11 topped the local scoring. Woodruff had 5 and Smith 2. Of the other starters, Seymour and Williford were scoreless.

Eight reserves played for Southern Pines, of whom three scored: McIntosh 5, Tollison 2 and Davenport 1. The others were Caldwell, Ward, Thomas, Carter and Hall.

Mashburn, with 28, was the big gun for Vass-Lakeview. Scoring of the other starters ran: Jackson 16, Buie 15, Marion 8 and Cameron 3. Among the subs, Blake scored 3 and Jessup 2. Others were Medlin, Keith and Smith.

OPEN HOUSE

(Continued from page 1) hate."

Groups from the school glee club sang and Miss R. S. Gripper sang a solo, "Bless This House."

Appreciation was expressed by West Southern Pines spokesmen for the work done at the school by the board of education. School officials praised the people of West Southern Pines for their fine attitude toward education.

The new building was designed by the T. T. Hayes architectural firm of Southern Pines.

ROTARIANS

(Continued from page 1) the luncheon speaker Saturday.

Opening prayer on Friday will be given by Jim Perkinson of Southern Pines. Joe Scott will welcome the visitors.

Wives of Rotarians, "Rotary Anns" will attend, and special events have been planned for them. A golf tournament on Friday is open to both men and women players.

The Rev. Carl Wallace of Southern Pines is to speak the closing prayer Saturday night.

The Southern Pines High School Glee Club will sing for the Rotarians Saturday night.

ARMED FORCES

Sn James D. Weatherspoon is on a six-weeks-long training cruise in the Caribbean, aboard the USS Vesole, a radar ship.

DURING PROGRAM—Here is a general view of the new West Southern Pines cafeteria during the open house program Monday night. Doors at rear of photo lead to the kitchen. Guests are seated among the tables on the cafeteria floor. At right, a group from the West Southern Pines school glee club is singing. In the background, to the left, are seated school and town officials and other guests. The room is colorful throughout—light blue sidewalls and ceiling, chateaux rear wall, dark-red decorative strips at top of side walls, and beige tile floor. Behind the singing group is a wide window area. (Pilot photo)

BOYETTE

(Continued from page 1) this time, I have been able to attend Court every day I was supposed to be present in the discharge of my duties as Solicitor. I have kept the docket in each County of the District current so that cases have been tried and disposed of promptly and at a minimum cost and inconvenience to those required to attend Court.

"I cherish the honor and privilege of further service which the Chief Justice of the North Carolina Supreme Court gave me when he appointed me in 1955 and re-appointed me in 1957 as one of the two Solicitors of North Carolina as a member of the Judicial Council of the State. This Council is composed of an Associate Justice of the Supreme Court, two Superior Court Judges, two District Solicitors and several outstanding lawyers of the State. One of the functions of this body is the study and improvement of justice and the laws of the State.

"I wish to take this opportunity to thank the people of this Solicitor District for allowing me to serve them as Solicitor and I shall be glad to continue to serve if they see fit to give me that high privilege."

PTA PLANS

(Continued from Page 1) especially "horror" shows and those with excessive emphasis on sex.

As a result of this protest, a reply was received from Mr. Stellings and he was invited to express his views on the matter, including the problems of distributors and theatre operators, directly to the membership.

Dr. Malcolm Kemp of Southern Pines, a psychiatrist, will speak Monday night and show a film on mental health, dealing especially with symptoms of mental illness or future mental illness that may be detected in childhood.

In recognition of February as "Heart Month," during which the nationwide financial drive of the American Heart Association is being conducted, Dr. Charles Phillips, a physician and past PTA president, will speak on diseases of the heart and their prevention in relation to children. Dr. Phillips recently attended a heart symposium.

Mrs. Woodell pointed out today that all three items on the program have interest for persons outside the PTA membership and said that anyone is welcome to attend. PTA meetings are always open to the public, she noted.

As the PTA is not the only organization in Southern Pines that has protested various types of movies shown here, and as several individuals have also written to Mr. Stellings on this subject, these people may also want to hear what the theatre executive has to say, Mrs. Woodell said.

A social hour, with refreshments, in the school cafeteria, will follow the meeting.

Twelve of the 36 curb markets in the State bring in annually more than \$10,000. The largest market, located in Mecklenburg county brought in \$52,498.01 in 1957, an increase of almost \$2,000 over 1956.

Chamber Commerce To Start Member Drive Monday; Name Committee Heads

Directors of the Southern Pines Chamber of Commerce set a goal of 175 memberships for 1958 this week and made plans to start the campaign Monday.

Meeting at the Southland Hotel for dinner Wednesday, the directors received committee chairmanship assignments from President J. I. Scott.

Members will be assigned to these committees, the president said, in accordance with choices they have been asked to make. Already about 40 such choices have been received, he said.

Also approved was a 1958 budget calling for income of \$6,175 and expenditures of \$5,825.

The income is estimated as \$4,375 from 175 memberships at \$25 each and \$1,800 from license bureau service, public stenographer receipts and other sources.

For the membership drive, each director has been given a list of businesses. It is hoped that the drive can be concluded by March 1.

The committee assignments for the directors are:

- Membership—Ward Hill and L. D. McDonald.
- Planning (Ways and Means)—C. H. Bowman, George Pottle.
- Industry—Nowland Phillips and Ward Hill.
- Public Relations—Mrs. Karl Brides.
- Publicity—Vance Derby.
- Town (Governmental)—Mrs. John Ruggles.
- Civic Relations—Alwin Folley.
- Advertising (Town)—George Pottle.
- Program of Special Events—Mrs. Bunny Harrington, Johnnie A. Hall.
- Convention—Mrs. Graham Culbreth.
- Budget—C. H. Bowman.
- Sponsoring—Mrs. Joe Marley.
- Business Promotion—Earl Hubbard, Dr. Leland Daniels.
- Congressional Action Committee—Ward Hill, Alwin Folley, Mrs. Graham Culbreth and Mrs. John Ruggles.

Scheipers Speaks
A special guest at the meeting, Town Manager Louis Scheipers, Jr., advised closer cooperation between town government and

PARADE

(Continued from page 1) ern Pines High School. The other troops will march south on Broad Street to New York Avenue and then turn left across the tracks and march to the cafeteria of the East Southern Pines High School. They will then be served their refreshments and board their transportation home.

J. E. Sandlin, Moore District Scouting chairman, noted this week that other observances will take place during Scout Week which opens Friday and runs through next Thursday.

In churches all over the county on Sunday, Scouts, Cubs and Explorers will attend in uniform in recognition of Boy Scout Sunday. Mr. Sandlin noted progress of Scouting in the county this year, with 10 new units formed since January 1.

J. Douglas David, of Pinebluff, District Activities chairman, is in over-all charge of the parade.

LACE PLANT

(Continued from page 1) and this area.

Under the proposed financing plan, the \$150,000 Business Development Corporation loan would be paid off in 10 years.

Mozur Laces, Inc., the company planning to locate here has its headquarters at Trenton, N. J., and two lace manufacturing plants in Tennessee. Charles A. Mozur is president of the company and Walter Kuffler is vice-president. Both of the officials have made several visits to Southern Pines since the plant project was originated in December and both are reported to be considering making their homes here.

Pending full approval of the \$7,500 appropriation by the county commissioners, for the water and sewer lines, officials of the Southern Pines Development Corporation have not announced what will be the disposition of pledges made to the town as donations by citizens to finance this work — a solution to the problem that was proposed before the commitment was made by the county commissioners.

Several thousand dollars worth of these donation pledges are held by the local group which was shooting at a goal of \$9,700 as the estimated needed amount to do the water and sewer construction work. These donation pledges are distinct from the investment pledges made for the plant itself.

Just how far the county's \$7,500 will go on the water and sewer project was not clear this week. Whether or not additional funds will be needed and what would be the source of those funds are matters not yet settled.

There was, however, the possibility that about \$2,000 might be cut from the water and sewer project, so far as immediate construction is concerned, by running the lines only to the plant itself and not to the far edge of the plant tract, as required in the Southern Pines water and sewer extension ordinance for new developments outside the town limits. This would seem to require an amendment to existing town law. However, it might be accomplished, it was a possibility being discussed by officials of the local Development Corporation this week.

In appropriating the \$7,500, the county commissioners made it clear that they were simply making this sum available "for industrial development." The county itself would not build the sewer and water lines and would undertake no direct responsibility for

the project. Under town law, the lines, when completed, must be dedicated to the Town.

The commissioners, in fact, were not sure this week just how the money would be made available or when it could be released. It may have to come out of the 1958-59 budget which goes into effect July 1.

The commissioners also made it clear that they regarded their action as no act of favoritism for one special project, but that they are initiating a policy of county participation in industrial development. Other sections of the county can expect to benefit, too, they implied, should a similar pressing need for funds arise.

Appearing before the commissioners Monday with the appropriation request were Mr. Ewing, L. B. Creath, chairman of the county-wide Industrial Development Committee, and Jack Williams, mayor of Carthage and a member of the committee.

Chairman Gordon Cameron of the board of commissioners said that the board was being guided in its action by the advice of the Institute of Government at Chapel Hill. It was apparent that the board had given the matter considerable thought and their approval of the appropriation was unanimous.

HEART FUND

(Continued from page 1)

Association, its affiliates and chapters: research seeking the basic causes and controls of the cardiovascular diseases; an educational program to supply new scientific information to physicians and the public; and conducting community heart programs to protect healthy hearts and enable heart sufferers to live useful, productive lives."

A large portion of the funds raised in this area, are used to support research, education and community service here in North Carolina. Mrs. Seymour pointed out. The Association is particularly interested in the education of the public in diseases of the heart, she said.

A timely example of this phase of the program, the chairman said, will be the appearance of Dr. Charles Phillips at the Parent-Teacher Association meeting in Weaver Auditorium, Monday, February 10, at 8 p. m. Dr. Phillips recently returned from a heart symposium. The PTA is issuing a special invitation to the

PILOT ADVERTISING PAYS

SOIL pH

What do we mean when we speak of soil pH? Simply stated, it refers to the relative acidity, sourness, or alkalinity, sweetness, of the soil. The pH of the soil affects the growth of all plants, and this is the reason lime is needed for some and not for others.
