

Rainey Attends Conference of City Managers

Town Manager F. F. (Bud) Rainey and Mrs. Rainey attended the 47th annual conference of the International City Managers' Association at Miami Beach, Fla., last week. The four-day meeting was attended by managers from throughout the United States and from foreign nations.

Others known here who attended the conference were Louis Scheipers, Jr., former Southern Pines town manager, who is now manager at Greenville, and Howard Burns, former local town clerk, before the city manager system was adopted, who is now

city manager at Lake Wales, Fla. At the conference, numerous municipal administrative problems and activities were discussed by visiting experts and the managers themselves. Mr. Scheipers assisted in leading one of the discussion sessions, "Encouraging Citizen Interest and Participation."

More than 500 managers attended the conference.

Display Windows Available For Use During Holidays

Display windows of the former Patch's Department Store on N. W. Broad St. are available at no cost to merchants and manufacturers of this area for Christmas displays, George Hodgkins of the Southern Pines Jaycees said this week.

The Jaycees, he said, have been asked to notify businessmen about the windows. He called the initial response "very encouraging."

There are nine display windows in the building which is now owned by a new corporation, One Seventy-Six Northwest Broad Street, Inc., whose officers are Frederick J. Mahony of Boston, Mass., and Dr. P. J. Chester and Garland McPherson, of Southern Pines.

For further information or reservations, interested persons are asked to call Thomas Ruggles, Jaycee president, OX 5-7251; Mr. Hodgkins, OX 5-7911; or Mr. McPherson, OX 5-3891.

Dr. and Mrs. J. C. Grier, Jr., accompanied by Mr. and Mrs. Allan McDonald, of West End, attended the Carolina-Virginia football game Saturday at Chapel Hill.

SAFE PLAYTHINGS

Miniature space vehicles, rockets, airplanes, automobiles, and other mechanical toys that use kerosene, gasoline, carbide or hydrogen peroxide for fuels may be hazardous if placed in the hands of unattended small children.

ON COMMITTEE

Lynn Martin of Eagle Springs has been appointed by the county commissioners as a member of the Moore County Industrial Development Committee.

MANY RESIDENTS

(Continued from Page 1)

ern Pines: "I certainly hope that Mayor Ruggles may receive a deluge of replies to his request for letters concerning the cutting of the pine trees on Midland Road, and that they strongly protest such an action."

"Midland Road is the safest and most beautiful drive in the county."

"It is regrettable that the accident which cost the lives of three young boys had to happen, and my sincerest sympathy goes out to the parents of these boys."

"As to safety, there is no excuse for an accident on this road, provided the driver conforms to the State speed law. Think what might have happened if that tree had not stopped the car the boys were driving; if it had crossed over into the east bound lane and crashed into another car coming in the opposite direction."

"The two-lane road provides both beauty and safety. Let's keep the trees by all means!"

From Mrs. George Heintsh, Southern Pines: "Traveling Midland Road four times a day, I am grateful for the beauty and protection of the trees. This is a residential road within the town. The speed limit is 35 miles per hour."

"Accidents occur because of violation of the posted speed law and the law of 'common sense.' The trees are the innocent bystanders! The trees clearly indicate that this road is a city street and should deter speeding. Removing the trees is encouraging the speeders and telling them in effect that everything will be done to help them speed."

"Science says trees help purify the air; for every running car ten trees are needed and for every truck, one hundred trees! Keep the trees! Removing them would not solve the problem, but only make it worse. At least the trees protect the innocent driver on the road beyond the trees."

From Mrs. Francis Ray, Pinehurst: "The great tragedy that happened on the double road—Midland—had nothing to do with the trees."

"The people who cannot drive on a double lane one-way highway and still NOT miss trees should never be given the privilege to drive."

"If that beautiful lane of pines is ever cut down, you and Pinehurst will have to change the names of your villages—Southern Grass and Grasshurst."

"My heart is with those boys' families—I have two children myself—but stripping trees is NO solution."

Director of Nurses At Hospital Resigns

Duncan McGoogan, administrator of Moore Memorial Hospital, this week announced the resignation of Mrs. Juanita Pickard as director of nurses at the Pinehurst institution. Mrs. Pickard, who has served in this capacity there since February, 1958, has accepted a similar position at Memorial Hospital of Alamance County in Burlington.

Mr. McGoogan said that no successor has yet been chosen.

COMMISSIONERS

(Continued from page 1)

offices on the third floor of the courthouse and that Farm Bureau members think an adequate building could be built with the money now on hand.

Chairman L. R. Reynolds and other commissioners admitted that it seemed that cutting the cost of the building is about the only way it will get built. Upshot of the matter was that Chairman Reynolds, Farm Agent Fleet Allen, Home Economics Agent Miss Flora McDonald and a Farm Bureau Committee will consult with Hayes and Howell, architects for the formerly proposed building, to see if those plans can be altered or if new plans will be needed.

Mr. Reynolds said he thought the board would go along in approving a structure to cost up to \$125,000.

The Farm Bureau delegation also recommended that the county employ a second assistant farm agent a specialist in forestry, to help farmers manage their woodlands, for production of timber and pulpwood. The county is losing far more in bad management of timber lands than the cost of such an agent's salary would be, Mr. Ransdell told the board.

The commissioners looked favorably on this project, too, and authorized County Agent Fleet Allen to look for a man to fill the job. The salary would be shared with state and federal funds, as will all Extension Service personnel.

All board members attended the meeting: Chairman Reynolds and Commissioners John M. Currie, Tom Monroe, W. S. Taylor and J. M. Pleasants.

side of the Moore County line, which the engine crossed, stopping in Hoke County.

State Trooper R. R. Samuels, who investigated the accident, said that the truck driver told him he didn't see the train and that when he heard the train's whistle blow it was too late for him to stop. Samuels said yesterday afternoon that charges against the truck driver are pending.

There are railroad warning signs, but no gate or blinkers at the crossing. Both road and railroad tracks run at that point for some distance in open, flat territory. An approaching train would be visible for some distance from the road.

The train had left Aberdeen about 20 minutes earlier on its

regular run. The crew was composed of Joe Marks, engineer; Leonard Allred, fireman; Dave Jones, Jr., conductor; and Ed Bratcher and Charles McLean, Negroes, brakemen, all of Aberdeen.

The train was under orders not to exceed 20 miles per hour because of its heavy load of coal, according to Forrest Lockey, A&R president, with offices at Aberdeen. He could not estimate damages immediately except that they would be "considerable," adding, "The main thing to be thankful for is that those two men weren't killed."

A wrecking crew and Seaboard Air Line wrecker were busy all Wednesday afternoon in drizzling rain, also on Thursday, at the scene, clearing up the debris and laying new track.
