Ducks which feed underwater can be distinguished from surface feeders by a close look at the hind toe. It is always lobed on the diving ducks.

**SWIMMING PROGRAM**—As part of the municipal summer recreation program, Southern Pines children have been getting swimming instruction at Aberdeen Lake, going there under supervision on the school activities bus. Bottom photo shows a recent morning's group at the lake. At back, left, is John Williams who is in charge of the recreation program. At right is Louis Manning, St. Andrews College senior and swimming and water safety instructor. At Manning's right is Dick Seymour, 1962 local high school graduate, who is assisting with recreation activities. The older boy at his right is Jerry Wilson, volunteer assistant. In top

photo, the group in shallow water is playing a basketball game that has proved popular with the youngsters. Poles with a rope divide the "court" and regular basketball nets on poles rise above the water at each end of the play area. Note ball in air at left, center. Manning is at left and Seymour is by the basket at right. This group for children 10 and older goes to the lake Monday, Wednesday and Friday mornings, leaving from Memorial Field on S. Bennett St. at 9:30. Children 6 to 10 go to Aberdeen Friday afternoons at 2, leaving from the park block, back of town hall. (Pilot photos)
