Colts Win Playoff
 The West End Colts, sponsored by the Baptist Church, won the playoff in the Sandhill Church Softball League at Candor Friday evening. The team was managed by Ed Baughn and he is particularly proud that they did so well since it was the first year of its organization. Robert Smith led the Colts in its batting average of .837 with Tommy McNeill following with an average of .785.

In the three game playoff, Johnnie Robbins pitched two games and Billy Baughn one. The team scored a total of 70 runs in the games with the opponents totaling only a score of 24. Tommy McNeill led the Colts with five home runs in the series and Brackman Garner following with three home runs.

Other players in the team were Kenneth, Phillip and Rodger Greene, Thomas Garner, and Hank and Harold Hunley. The lovely trophy is on display at the drug store and no one is more enthusiastic over the good playing than The Rev. Clifton Tuttle.

TEAMWORK IN ELECTRIC PLANNING RESULTS IN PROFITABLE FARMING

Our farm service representatives have lots of answers about electricity and its uses.

They work with farmers—making recommendations—producing plans—helping make farms as productive and profitable as possible. And their work is backed by farm research, carried on by the investor-owned electric companies and others.

Farmers are among our best customers. We supply power to more than 150,000 rural customers. Electricity helps make better farms. And better farms mean a better, healthier America. We're planning and building right now so all the additional power that will be required in the future will be on hand, when and where it is needed—on farms, in homes, in businesses and industries.
