## Break-Ins Charged To 3 Local Boys, All 13 Years Old

Three 13-year-old local boys who, officers said, have admitted to a number of break-ins in the area over the past two years were to have hearings in juvenile court at Carthage today.

Three are from Southern Pines and one from Manly, a fourth Southern Pines boy, also 13, who it was determined participated in only one offense, was turned over to his parents with a warning, said Police Chief Earl S. Seawell.

All the boys are in the same grade at East Southern Pines School.

Local police and the Moore County sheriff's department cooperated in the investigation, which involves break-ins of businesses places at Southern Pines, Aberdeen and Manly, also two churches at Southern Pines. Clerk of Court C. C. Kennedy of Carthage serves as juvenile judge in Moore County.

The break-ins were "mostly vandalism," Seawell said, and little was taken other than candy, soft drinks, novelties and other small items, also a quantity of crackers and cookies in four recent break-ins at the Murray Cracker Co. storage building at Manly.

The boys, who had told their families they were "camping out," were traced after they had built a campfire at Manly, leaving not only its ashes but candy wrappers and other debris, and a large bag filled with candies and cookies.

In addition to the cracker concern, places they had broken into included the Manly Grill (twice); the Aberdeen Lake concession stand and Styers' second-hand furniture store at Aberdeen (the latter one of the few places they took any money, along with an obsolete Army telephone); and, at Southern Pines, the Presbyterian and Methodist churches, the old Carolina Theatre building, some garage and storage buildings behind Poe's Texaco Service and the concession stand at the ball park.

The boys, who had been seen at their campfire, were picked up one by one and at first denied knowledge of the break-ins. However, once the first admission came, they "came clean" and they and their parents were very cooperative, Seawell said.

He said two had been in trouble before, and one, whose case had been handled by the juvenile court, had been receiving psychiatric treatment.

Publication of the names of juvenile defendants in cases of this sort is not permitted.

## School Resolution Assigns Students

A resolution assigning all students in the Southern Pines schools to the schools which they attended during the past school year has been adopted by the board of education.

All other children will be assigned to a school when request for admission is made.

Any application by parents for a child to attend a school other than the one to which he has been assigned must be made to the board on or before July 6, the resolution states.

Full text of the resolution appears on page A.
